The first goal is to explore the difference

between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University. This short course for young students is based on the highly successful Cambridge English for Schools series. Through the variety of tasks, the rich content and the superb

visual material, students learn English naturally and in ways which generate enthusiasm and motivation. Listening and Speaking Packs for self-study provide extra practice in listening, speaking and pronunciation. Videos are also available for all levels. There are five levels plus a Starter, and each level provides 40-60 hours of class work. Key Features \* Optional units provide extra material for courses of up to 60 hours, giving teachers greater flexibility in the classroom. \* An 'A-Z of Methodology' reference booklet is available to accompany the Teacher's Book. \* Integrated project work, including the 'Parcel of English' scheme, brings English alive. \* Cassettes are available in British or American English.
