The Car Buying Guide Dec 20 2022 New Car Buying Guide Helps Consumers Get Insider Tips On How To Buy A Car For Less! 'How do you buy a car?' is a common question that most people have no idea on the best way to answer. Knowing how to buy a used car or even a new one for that matter, can mean the difference between going home happy or leaving the dealership with empty pockets. Generally the second biggest purchase in a person's life is buying a car. It can also turn out to be one of the most expensive mistakes you could ever make. Most people that are in the market to buy a new car struggle with the idea of dealing with dealers and salespeople. In fact, the average car buyer pays about 20% more than they need to when you factor in financing mistakes, undervalued trade-ins, and inflated sticker prices. Because most people only buy a car every few years, it is difficult for them to gain the experience needed to avoid all of the traps that are out there. They have countless questions to which they must know the answers before they go. Questions such as, should you reveal your monthly payment amount? Leasing it sounds good, but is it really a good deal? Should I trade or sell it myself? Will it help to buy from a friend in the business? A new independent car buying guide entitled The Car Buying Guide - How to Buy a Car Without Getting SCREWED OVER! has just been released to help consumers navigate the complex process of buying a car. Author Greg Mason has put together an extensive collection of tips on buying a car and resources to educate car buyers about the numerous profit streams car dealers use to exploit their customers. Each chapter of The Car Buying Guide covers a different angle of the buying process. Mason not only educates his readers on the ways banks and car dealerships profit from selling cars, but he also provides the best ways to avoid paying too much on financing, dealer fees, and of course the price of the car itself. The Car Buying Guide is different from all other car buying books in that it has a "little something" that most others don't. That little something is the information you need to get to a rock bottom price on the car of your dreams with the least amount of effort in the shortest time possible. Furthermore, The Car Buying Guide is written strictly and uniquely from the buyers' perspective, which puts the consumer in the driver's seat.

*The Car Buyers Guide...* Nov 14 2019 Do you know all the hidden secrets that exist in the retail automobile business? If curiosity about the inner-most workings of the "car biz" has gotten the best of you or you are in immediate need of some money-saving tips on buying, leasing, selling or servicing a car or truck, then please use this book to prepare you for your next experience. For over 100 years, the automotive purchase experience has been a source of anxiety and discomfort to the consumer. That unfortunate circumstance was the motivating factor that caused us to write this book and to address those topics which we believe, will offer the most practical value, get some much needed information out in the open, correct some common misunderstandings and, explain those industry practices which seem to suffer most from the public's misconceptions. The majority of questions in this book will be answered from the consumers' perspective. We also believe that folks in the auto industry will find this book to be useful and informative text. We can make that last statement because, until the auto buying public is comfortably acquainted with the industry's practices AND, the industry recognizes that an educated consumer is its' best asset, we're all destined to suffer from the anxiety, distrust, suspicion and sense of inequality that's been welded onto buying, selling and servicing a car. This book is, by many measures, the first attempt to inform the consuming public of the elements associated with the automobile industry. We have accumulated over 40 years of experience in the auto industry and determined that responding to the many questions commonly asked by automotive consumers is a public service long overdue. We attempt to answer each of the following questions and many others: WHAT SHOULD MOTIVATE ME WHEN MAKING A VEHICLE PURCHASE DECISION? HOW CAN I BE SURE I'M MAKING A "GOOD VALUE" DECISION? ARE FEMALE AUTO BUYERS & SERVICE CUSTOMERS TREATED DIFFERENTLY? HOW DO I BETTER UNDERSTAND THE SALES PROCESS AT A DEALERSHIP? WHAT'S IMPORTANT ABOUT A "TEST DRIVE"? HOW MUCH PROFIT IS "REASONABLE" FOR A DEALERSHIP TO MAKE ON MY PURCHASE? WHAT DO I NEED TO KNOW ABOUT BUYING A USED VEHICLE? HOW DO I KNOW WHAT MY VEHICLE IS WORTH WHEN I TRADE IT IN? WHAT HAPPENS WHEN I HAVE MY VEHICLE SERVICED? HOW CAN I BE SURE THAT THE REPAIRS PERFORMED BY THE SERVICE DEPARTMENT WERE NECESSARY?

There is no secret that the seller's whole motivation is to sell you the vehicle at the highest price possible, and/or at the highest interest rates possible, and/or on the seller's terms. It is a very common practice in dealerships that the higher the sales person sales the vehicle for, the higher the sales person's commission. The higher the interest rate, the higher the sales person's commission. The more the sales person can convince you to sign the contract closer to his terms, the higher the sales person's commission. Therefore, it should not be a surprise to you that you need to gain the most knowledge you can to offset the sales person's strategies and tactics and save yourself some money.
