The Day After the Sabbath Nov 14 2019 This booklet is really written to a special group of people: the Seventh Day Adventists and the Seventh Day Pentecostals. It is not written from any 'antagonistic' point of view but it written from a personal point of view, from a Scriptural point of view. Having done much reading on the subject of the Fourth Commandment regarding the keeping of the Sabbath Day, the writer believes the Lord has quickened to him those verses that speak of "the morrow (or day) AFTER the Sabbath", which really is the first day of the new week, to settle for him why the majority of Christians worship the Lord on the first day of the week, or, "the morrow after the Sabbath". That is, most do not understand why they worship on that day. The writer has many good Christian friends in the above groups, but believes there are some in, what he calls, "covenantal confusion" on this subject. If this booklet helps on this area, both Adventists and Christian in general, his efforts will not be in vain. After all, true believers keep their relations with the Lord seven days of the week, regardless of "a day" and will be accountable to Him "in that Day".

Chasing Harvest Sep 05 2021 A chef's tale of love, loss, hopes, dreams, fears, fires & oil. Who among us has the courage to keep chasing our dreams, even when those dreams shatter into a million pieces? In Chasing Harvest, culinary wunderkind Kevin O'Connor charts his remarkable journey from Californian hometown teen prodigy to globe-trotting Chef-at-Large for international olive oil producer Cobram Estate. Anchored around the company's olive harvests in both Northern and Southern Hemispheres, it reveals the trials and tribulations that led to this anointment, and the incredible produce, places and passions that continue to stoke the fires of his love for food. This Green and Growing Land Dec 16 2019 From Benjamin Franklin's campaign to combat pollution at the Philadelphia's docks in the 1750s to the movement against climate change today, American environmentalists have sought to protect the natural world and promote a healthy human society. In This Green and Growing Land, historian Kevin Armitage shows how the story of American environmentalism—part philosophy, part social movement—is in no small way a story of America itself, of the way citizens have self-organized, have thought of their communities and their government, and have used their power to protect and enrich the land. Armitage skillfully analyzes the economic and social forces begetting environmental change and emphasizes the responses of a variety of ordinary Americans—as well as a few well-known leaders—to these complex issues. This concise and engaging survey of more than 250 years of activism tells the story of a magnificent American achievement—and the ongoing problems that environmentalism faces.

The House of Hemp and Butter Jan 17 2020 Founded as an ecclesiastical center, trading hub, and intended capital of a feudal state, Riga was Old Livonia's greatest city and its indispensable port. Because the city was situated in what was initially remote and inhospitable territory, surrounded by pagans and coveted by regional powers like Poland, Sweden, and Muscovy, it was also a fortress encased by a wall. The House of Hemp and Butter begins in the twelfth century with the arrival to the eastern Baltic of German priests, traders, and knights, who conquered and converted the indigenous tribes and assumed mastery over their lands. It ends in 1710 with an account of the greatest war Livonia had ever seen, one that was accompanied by mass starvation, a terrible epidemic, and a flood of nearly Biblical proportions that devastated the city and left its survivors in misery. Readers will learn about Riga's people—merchants and clerics, craftsmen and builders, porters and day laborers—about its structures and spaces, its internal conflicts and its unrelenting struggle to maintain its independence against outside threats. The House of Hemp and Butter is an indispensable guide to a quintessentially European city located in one of the continent's more remote corners.
