Recycling and Deinking of Recovered Paper May 05 2021 Paper recycling in an increasingly environmentally conscious world is gaining importance. Increased recycling activities are being driven by robust overseas markets as well as domestic demand. Recycled fibers play a very important role today in the global paper industry as a substitute for virgin pulps. Paper recovery rates continue to increase year after year. Recycling technologies have been improved in recent years by advances in pulping, flotation deinking and cleaning/screening, resulting in the quality of paper made from secondary fibres approaching that of virgin paper. The process is a lot more eco-friendly than the virgin-papermaking process, using less energy and natural resources, produce less solid waste and fewer atmospheric emissions, and helps to preserve natural resources and landfill space. Currently more than half of the paper is produced from recovered papers. Most of them are used to produce brown grades paper and board but for the last two decades, there is a substantial increase in the use of recovered papers to produce, through deinking, white grades such as newsprint, tissue, market pulp. By using recycled paper, companies can take a significant step toward reducing their overall environmental impacts. This study

deals with the scientific and technical advances in recycling and deinking including new developments. Covers in great depth all the aspects of recycling technologies Covers the latest science and technology in recycling Provides up-to-date, authoritative information and cites many mills experiences and pertinent research Includes the use of biotech methods for deinking, refining, and improving drainage

Attack Surface Oct 10 2021 Cory Doctorow's *Attack Surface* is a standalone novel set in the world of New York Times bestsellers *Little Brother* and *Homeland*. Most days, Masha Maximow was sure she'd chosen the winning side. In her day job as a counterterrorism wizard for an transnational cybersecurity firm, she made the hacks that allowed repressive regimes to spy on dissidents, and manipulate their every move. The perks were fantastic, and the pay was obscene. Just for fun, and to piss off her masters, Masha sometimes used her mad skills to help those same troublemakers evade detection, if their cause was just. It was a dangerous game and a hell of a rush. But seriously self-destructive. And unsustainable. When her targets were strangers in faraway police states, it was easy to compartmentalize, to ignore the collateral damage of murder, rape, and torture. But when it hits close to home, and the hacks and exploits she's devised are directed at her friends and family--including boy wonder Marcus Yellow, her old crush and archrival, and his entourage of naïve idealists--Masha realizes she has to choose. And whatever choice she makes, someone is going to get hurt. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Reflections on Translation Theory Nov 30 2020 Originally published in different journals and collected volumes, these papers in conceptual analysis cover some central topics in translation theory and research: types of theory and hypothesis; causality and explanation; norms, strategies and so-called universals; translation sociology, and ethics. There are critical reviews of Catford's theory, and of Skopos theory, and of Kundera's views on literary translation, and detailed analyses of the literal translation hypothesis and the unique items hypothesis. The methodological discussions, which draw on work in the philosophy of science, will be of special relevance to younger researchers, for example those starting work on a doctorate. Some of the arguments and positions defended – for instance on the significant status of conceptual, interpretive hypotheses, and the ideal of consilience – relate to wider ongoing debates, and will interest any scholar who is concerned about the increasing fragmentation of the field and about the future of Translation Studies. Let the dialogue continue!
