Who's Afraid of Modern Art? Mar 15 2022 Modern art can be confusing and intimidating--even ugly and blasphemous. And yet curator and art critic Daniel A. Siedell finds something else, something much deeper that resonates with the human experience. With over thirty essays on such diverse artists as Andy Warhol, Thomas Kinkade, Diego Velazquez, Robyn O'Neil, Claudia Alvarez, and Andrei Rublev, Siedell offers a highly personal approach to modern art that is informed by nearly twenty years of experience as a museum curator, art historian, and educator. Siedell combines his experience in the contemporary art world with a theological perspective that serves to deepen the experience of art, allowing the work of art to work as art and not covert philosophy or theology, or visual illustrations of ideas, meanings, and worldviews. Who's Afraid of Modern Art? celebrates the surprising beauty of art that emerges from and embraces pain and suffering, if only we take the time to listen. Indeed, as Siedell reveals, a painting is much more than meets the eye. So, who's afraid of modern art? Siedell's answer might surprise you.

Modern Art: A Very Short Introduction Feb 26 2023 As public interest in modern art continues to grow, as witnessed by the spectacular success of Tate Modern and the Bilbao Guggenheim, there is a real need for a book that will engage general readers, offering them not only information and ideas about modern art, but also explaining its contemporary relevance and history. This book achieves all this and focuses on interrogating the idea of 'modern' art by asking such questions as: What has made a work of art qualify as modern (or fail to)? How has this selection been made? What is the relationship between modern and contemporary art? Is 'postmodernist' art no longer modern, or just no longer modernist - in either case, why, and what does this claim mean, both for art and the idea of 'the modern'? Cottington examines many key aspects of this subject, including the issue of controversy in modern art, from Manet's Dejeuner

sur L'Herbe (1863) to Picasso's Les Demoiselles, and Tracey Emin's Bed, (1999); and the role of the dealer from the main Cubist art dealer Kahnweiler to Charles Saatchi. Art for All? Aug 08 2021 This book tells the story of Germany's rich, flourishing, and diversified world of art in the last decades of the nineteenth century--a world that has until recently been eclipsed by the events of the twentieth century. Basing her narrative on a close reading of contemporary periodicals, and lavishly complementing it with cartoons and other

illustrations from these publications, Beth Irwin Lewis provides the first systematic, comprehensive study of that German art world. She focuses on how critics and the public responded to new forms of painting that emerged in the 1880s, when the explosive growth of art exhibitions supported by local governments across a recently united Germany was accompanied by skyrocketing attendance of a new mass public. Describing the rapid critical acceptance and dominance of the new modern art in the 1890s, Lewis analyzes these developments within a complex interweaving of social, cultural, and economic factors. Although critics had hoped for a unified new art for the new nation, the success of modern art fragmented the art world, as modern artists and their supporters turned away from the often unreceptive mass public of the great exhibitions. Lewis's approach through the popular journals reveals the public's growing alienation from modern artists and an increasing contempt for the public on the part of these artists and their supporters--all of which prefigured tensions in the contemporary art world. Her wide-ranging text examines not only the various ways art was promoted to and received by the public, but also anti-Semitism, the role of women artists, and changes in style of both art and criticism. Well documented, engagingly written, and vividly illustrated, this book will interest not only scholars and students but all readers interested in German cultural history and art history.

A good quality book, tightly bound, and well illustrated.' – Colin, Amazon reviewer 'The Short Story of Art is an attractive volume that serves as a convenient introduction to major movements, works, themes, and techniques of Western art. From *Le Déjeuner sur l'herbe* (1866) by Claude Monet, the *Mardi gras* (1888-90) by Paul Cézanne, Paul Gauguin's Tahitian odalisque *Eh quoi, tu es jalouse?* (1892), the luminescent panel *L'Atelier du peintre* (1911) by Henri Matisse, to conclude with Pablo Picasso's *Trois femmes* (1908), the magnificence of Shchukin's collection is exhibited here. Extended by a group of some 30 major works from the Russian avant-gardes, including *Counter Relief* (1916) by Vladimir Tatlin, *Green Stripe* (1917) by Olga Rozanova, and Kazimir Malevich's monochrome painting, *Black Suprematie Square* (1929), *Icons of Modern Art* covers the extreme breadth of this journey through 19th- and 20th-century creation. The presentation of these exceptional works, where our collective gaze comes together, constitutes an exemplary "painting lesson."

Duncan and Marjorie Phillips and America's First Museum of Modern Art May 25 2020 He was born to privilege and sought the world of art. She lived at the center of that world—a working artist encouraged by the famous artists in her extended family. Together, Duncan Phillips and Marjorie Acker Phillips founded The Phillips Collection in Washington, D.C., the first museum of modern art in America. It opened in the grand Phillips family home in 1921, eight years before New York City's Museum of Modern Art and only a few weeks after they wed. Duncan took the lead in developing the collection and showcasing it. Marjorie kept space and time to paint. Duncan considered Marjorie a partner in the museum even though she was not

directly involved in all purchasing and presentation decisions. To him, her influence was omnipresent. Although Duncan's writings on artists and art history were widely published, he chose not to provide much instruction for visitors to the museum. Instead, he combined signature methods of displaying art which live on at The Phillips Collection. Phillips had viewers in mind when he hung American art with European art—or art of the past with modern art, and he frequently rearranged works to stimulate fresh encounters. With unfettered access to archival material, author Pamela Carter-Birken argues that The Phillips Collection's relevancy comes from Duncan Phillips's commitment to providing optimal conditions for personal exploration of art. In-depth collecting of certain artists was one of Phillips's methods of encouraging independent thinking in viewers. Paintings by Pierre Bonnard, Arthur Dove, Georgia O'Keeffe, John Marin, Jacob Lawrence, and Mark Rothko provide testament to the power of America's first museum of modern art.

How New York Stole the Idea of Modern Art Jul 19 2022 "A provocative interpretation of the political and cultural history of the early cold war years. . . . By insisting that art, even art of the avant-garde, is part of the general culture, not autonomous or above it, he forces us to think differently not only about art and art history but about society itself."—New York Times Book Review

Modern in the Making Jul 07 2021 Today the Museum of Modern Art is widely recognized for establishing the canon of modern art; yet in its early years, the museum considered modern art part of a still unfolding experiment in contemporary visual production. By bracketing MoMA's early history from its later reputation, this book explores the ways the Museum acted as a laboratory to set an ambitious agenda for the exhibition of a multidisciplinary idea of modern art. Between its founding in 1929 and its 20th anniversary in 1949, MoMA created the first museum departments of architecture and design, film, and photography in the country, marshaled modern art as a political tool, and brought consumer culture into a versatile yet institutional context. Encompassing 14 essays that investigate the diversity of modern art, this volume demonstrates how MoMA's programming shaped a version of modern art that was not elitist but fundamentally intertwined with all levels of cultural production.

Modern Art And Modernism Aug 28 2020 *Modern Art and Modernism* offers firsthand material for the study of issues central to the development of modern art, its theory, and criticism. The history of modern art is not simply a history of works of art, it is also a history of ideas interpretations. The works of critics and theorists have not merely been influential in deciding how modern art is to be seen and understood, they have also influenced the course it has taken. The nature of modern art cannot be understood without some analysis of the concept of Modernism itself. *Modern Art and Modernism* presents a selection of texts by the major contributors to debate on this subject, from Baudelaire and Zola in the nineteenth century to Greenberg and T. J. Clark in our own times. It offers a balanced section of essays by contributors to the mainstream of Modernist criticism, representative examples of writing on the themes of abstraction and expression in modern art, and a number of important contributions to the discussion of aesthetics and the social role of the artist. Several of these are made available in English translation for the first time, and others are brought together from a wide range of periodicals and specialized collections. This book will provide an invaluable resource for

teachers and students of modern art, art history, and aesthetics, as well as for general readers interested in the place of modern art in culture and history.

The Modern Art of Dying Dec 20 2019 How we die reveals much about how we live. In this provocative book, Shai Lavi traces the history of euthanasia in the United States to show how changing attitudes toward death reflect new and troubling ways of experiencing pain, hope, and freedom. Lavi begins with the historical meaning of euthanasia as signifying an "easeful death." Over time, he shows, the term came to mean a death blessed by the grace of God, and later, medical hastening of death. Lavi illustrates these changes with compelling accounts of changes at the deathbed. He takes us from early nineteenth-century deathbeds governed by religion through the medicalization of death with the physician presiding over the deathbed, to the legalization of physician-assisted suicide. Unlike previous books, which have focused on law and technique as explanations for the rise of euthanasia, this book asks why law and technique have come to play such a central role in the way we die. What is at stake in the modern way of dying is not human progress, but rather a fundamental change in the way we experience life in the face of death, Lavi argues. In attempting to gain control over death, he maintains, we may unintentionally have ceded control to policy makers and bio-scientific enterprises.

[Mumford on Modern Art in the 1930s](#) Sep 28 2020 "Superbly crafted little essays, Lewis Mumford's New Yorker pieces called 'The Art Galleries' well deserve this handsome republication. They offer supremely tasteful guided tours of the galleries and museums of Manhattan at the time when the canon of Western art, including modernism, was being secured, against a background of tension between abstraction and realism and between aestheticism and social commitment. The essays are a gift for our own troubled times from one of the great humane and versatile critics of the twentieth century; they offer the reassurance of urbanity, poise, and commitment to art as a primary social necessity."—Alan Trachtenberg, Neil Grey Emeritus Professor of English, Yale University

Concepts of Modern Art Feb 02 2021 No other book on modern and contemporary art presents in as authoritative and concise a manner the ideas that underlie the diverse and radical developments of the last hundred years. In this new edition, an important essay, "Postmodernism and the Art of Identity", not only brings the story of modern art right up to the present, but also introduces the unexpected development of returning to art the day-to-day meaning it may have lost, through engagement with issues raised in the representation of gender, sexuality, and AIDS. In other essays by some of the most internationally acclaimed writers on art, the extraordinary challenges of twentieth-century art are introduced and discussed with unparalleled lucidity, intelligence, and factual accuracy.

In Pursuit of Universalism Apr 23 2020 "Volk's impressive study rethinks the East-West binary often reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism itself. The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative

framework for understanding the global development of modernism that decenters Euro-America. Rigorously historical in her critique, Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu's singular vision of the self, leaving us questioning conventional wisdom and contented to wobble."--Gennifer Weisenfeld, Duke University "In Volk's affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugor?'s work between 1910-1930, we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices. In this study of Yorozu's utopian universalist project, Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life, contemporary culture and history."--Harry Harootunian, author of *Overcome by Modernity: History, Culture and Community in Interwar Japan*

Modern Art and the Remaking of Human Disposition Jan 21 2020 How artists at the turn of the twentieth century broke with traditional ways of posing the bodies of human figures to reflect modern understandings of human consciousness. With this book, Emmelyn Butterfield-Rosen brings a new formal and conceptual rubric to the study of turn-of-the-century modernism, transforming our understanding of the era's canonical works. Butterfield-Rosen analyzes a hitherto unexamined formal phenomenon in European art: how artists departed from conventions for posing the human figure that had long been standard. In the decades around 1900, artists working in different countries and across different media began to present human figures in strictly frontal, lateral, and dorsal postures. The effect, both archaic and modern, broke with the centuries-old tradition of rendering bodies in torsion, with poses designed to simulate the human being's physical volume and capacity for autonomous thought and movement. This formal departure destabilized prevailing visual codes for signifying the existence of the inner life of the human subject. Exploring major works by Georges Seurat, Gustav Klimt, and the dancer and choreographer Vaslav Nijinsky—replete with new archival discoveries—*Modern Art and the Remaking of Human Disposition* combines intensive formal analysis with inquiries into the history of psychology and evolutionary biology. In doing so, it shows how modern understandings of human consciousness and the relation of mind to body were materialized in art through a new vocabulary of postures and poses.

[The Museum of Modern Love](#) Apr 04 2021 “Art will wake you up. Art will break your heart. There will be glorious days. If you want eternity you must be fearless.” —Heather Rose, *The Museum of Modern Love* Our hero, Arky Levin, has reached a creative dead end. An unexpected separation from his wife was meant to leave him with the space he needs to work composing film scores, but it has provided none of the peace of mind he needs to create. Guilty and restless, almost by chance he stumbles upon an art exhibit that will change his life. Based on

a real piece of performance art that took place in 2010, the installation that the fictional Arky Levin discovers is inexplicably powerful. Visitors to the Museum of Modern Art sit across a table from the performance artist Marina Abramovi?, for as short or long a period of time as they choose. Although some go in skeptical, almost all leave moved. And the participants are not the only ones to find themselves changed by this unusual experience: Arky finds himself returning daily to watch others with Abramovi?. As the performance unfolds over the course of 75 days, so too does Arky. As he bonds with other people drawn to the exhibit, he slowly starts to understand what might be missing in his life and what he must do. This is a book about art, but it is also about success and failure, illness and happiness. It's about what it means to find connection in a modern world. And most of all, it is about love, with its limitations and its transcendence.
