Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork. American Woodworker magazine, A New Track Media publication, has been the premier publication for woodworkers all across America for 25 years. We are committed to providing woodworkers like you with the most accurate and up-to-date plans and information -- including new ideas, product and tool reviews, workshop tips and much, much more. Trees are the most powerful of all plants. They are also the longest lived. Find out the most powerful cures of the forest, especially the wild chaga mushroom and wild birch bark. Learn how chaga mushroom extract: gives you enormous strength and energy helps reverse serious diseases, including cancer, heart disease, lung disease, pain syndromes, eczema, psoriasis, and high blood pressure greatly boosts and strengthens the immune system helps prevent all diseases and increases lifespan With wry humor, gentle candor, and an eye for the telling detail, Jim Northrup, gifted poet, journalist, and storyteller, invites readers to explore the world of today's Anishinaabe, or Ojibway, people and offers droll commentary on his encounters with the "immigrant communities" (his term for Caucasian Americans). With the rise of urban living and the digital age, many North American healers are recognizing that traditional medicinal knowledge must be recorded before being lost with its elders. A Cree Healer and His Medicine Bundle is a historic document, including nearly 200 color photos and maps, in that it is the first in which a native healer has agreed to open his medicine bundle to share in writing his repertoire of herbal medicines and where they are found. Providing information on and photos of medicinal plants and where to harvest

them, anthropologist David E. Young and botanist Robert D. Rogers chronicle the life, beliefs, and healing practices of Medicine Man Russell Willier in his native Alberta, Canada. Despite being criticized for sharing his knowledge, Willier later found support in other healers as they began to realize the danger that much of their traditional practices could die out with them. With Young and Rogers, Willier offers his practices here for future generations. At once a study and a guide, *A Cree Healer and His Medicine Bundle* touches on how indigenous healing practices can be used to complement mainstream medicine, improve the treatment of chronic diseases, and lower the cost of healthcare. The authors discuss how mining, agriculture, and forestry are threatening the continued existence of valuable wild medicinal plants and the role of alternative healers in a modern health care system. Sure to be of interest to ethnobotanists, medicine hunters, naturopaths, complementary and alternative health practitioners, ethnologists, anthropologists, and academics, this book will also find an audience with those interested in indigenous cultures and traditions. *Participating in Nature* teaches you how to stay warm and comfortable without a sleeping bag, how to start a fire by friction, and how to build a reliable shelter from natural materials. Includes the self-reliance skills of fishing by hand, cooking edible plants, felting with wool, and making stone knives, wooden containers, willow baskets, and cordage. *Experience the Joy and Delight of Creating Amazing Wedding Cakes from Scratch*. Nineteenth-century building advice that is eminently practical in the twenty-first century. 330 b/w illustrations Omakayas, a seven-year-old Native American girl of the Ojibwa tribe, lives through the joys of summer and the perils of winter on an island in Lake Superior in 1847. A quirky, beautifully photographed collection of delicious and creative Nordic baking recipes inspired by nature. From the Danish concept of hygge (or "coziness") to the Swedish fika (or "coffee break"), when it comes to enjoying the good things in life, the Nordic countries tend to know best. And dessert, Bakeland reveals, is no exception. Written by Marit Hovland, the Norse graphic designer, baker, and photographer behind the popular Instagram account and blog Borrow My Eyes, this gorgeous recipe book is a remarkably innovative homage to the beauty of the world around us that will delight lovers of baking, crafting, nature, and all things Scandinavian. With fifty tempting dessert recipes and 140 stunning color photographs, Bakeland is as much a treat for the eyes as it is for the taste buds. Focusing on purity, season, and quality, Hovland offers a sweet, playful approach

to the New Nordic cuisine trend made popular by chefs like Magnus Nilsson. Her belief that “inspiration can be found everywhere” shines through in each of her culinary creations, which replicate the most striking aspects of the natural world. From chocolate sea to pinecone-shaped gingersnaps, *Bakeland* takes readers on an artful, tasty trip through nature in Norway, season by season. Better yet, each recipe is detailed, precise, and easy to follow, with no special equipment required. With step-by-step illustrated instructions and an emphasis on simplicity, Hovland’s approach to baking is as accessible as it is delectable. 45 step-by-step, illustrated activities that teach kids everything from how to see like an owl to build the world’s coolest fort from sticks. (ages 8-12)

Calling all adventurers! Want to know how to build a fort from nothing but sticks? Or find your way through the forest? This survival guide is your ticket to getting down and dirty in nature and learning to make the coolest things with your own two hands. Look inside to learn how to:

- Use a knife without bleeding

This National Book Award finalist by Pulitzer Prize-winning novelist Louise Erdrich is the first installment in an essential nine-book series chronicling 100 years in the life of one Ojibwe family, and includes beautiful interior black-and-white artwork done by the author. She was named *Omakayas*, or Little Frog, because her first step was a hop. *Omakayas* and her family live on an island in Lake Superior. Though there are growing numbers of white people encroaching on their land, life continues much as it always has. But the satisfying rhythms of their life are shattered when a visitor comes to their lodge one winter night, bringing with him an invisible enemy that will change things forever—but that will eventually lead *Omakayas* to discover her calling. By turns moving and humorous, this novel is a breathtaking tour de force by a gifted writer.

The beloved and essential Birchbark House series by Louise Erdrich includes *The Birchbark House*, *The Game of Silence*, *The Porcupine Year*, *Chickadee*, and *Makoons*. This teaching guide covers the identification, deterioration, and conservation of artifacts made from plant materials. Detailed information on plant anatomy, morphology, and development, focusing on information useful to the conservator in identifying plant fibers are described, as well as the processing, construction, and decorative techniques commonly used in such artifacts. A final chapter provides a thorough discussion of conservation, preservation, storage, and restoration methods. This is a valuable resource to conservators and students alike. In Greenville, New Hampshire, a small town in the southern part of the state, Henri Vaillancourt makes birch-bark canoes in the same manner and with the same tools that the Indians used. The Survival of the Bark Canoe is the story of this ancient craft and of a 150-mile trip through the Maine woods in those graceful survivors of a prehistoric technology. It is a book squarely in the tradition of one written by the first tourist in these woods, Henry David Thoreau, whose The Maine Woods recounts similar journeys in similar vessel. As McPhee describes the expedition he made with Vaillancourt, he also traces the evolution of the bark canoe, from its beginnings through the development of the huge canoes used by the fur traders of the Canadian North Woods, where the bark canoe played the key role in opening up the wilderness. He discusses as well the differing types of bark canoes, whose construction varied from tribe to tribe, according to custom and available materials. In a style as pure and as effortless as the waters of Maine and the glide of a canoe, John McPhee has written one of his most fascinating books, one in which his talents as a journalist are on brilliant display. 2020 Daily Planner Dry Birch Bark Photo 388 Pages contains one whole page for every day of the year. Thirteen-year-old Brian Robeson, haunted by his secret knowledge of his mother's infidelity, is traveling by single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents. The bark canoes of the North American Indians, particularly those of birchbark,

were among the most highly developed manually propelled primitive watercraft. Built with Stone Age tools from available materials, their design, size, and appearance were varied to suit the many requirements of their users. Even today, canoes are based on these ancient designs, and this fascinating guide combines historical background with instructions for constructing one. Author Edwin Tappan Adney, born in 1868, devoted his life to studying canoes and was practically the sole scholar in his field. His papers and research have been assembled by a curator at the Smithsonian Institution. For centuries people have marveled over the beauty of plaited basketry; now readers can actually learn the skill and artistry of this craft in the comfort of their own homes. Scholar, artisan, and teacher Vladimir Yarish created all of the birch bark baskets for this book after scouring museums and archeological sites all around the world. This definitive guide focuses on the history and myriad traditional uses of birch bark, as well as general instructions for basket-making and plaiting. Get hands-on with 18 birch bark projects, both decorative and useful, including a rectangular tray, small basket with three-part braid, or an oval basket with curls.
