What is the Bible? How was it put together? Did God really write it? Why are there so many versions? ...And why should I care? Author Mindi Jo Furby answers these questions and more in a conversational tone that illuminates Scripture like you've never experienced before. Mindi encountered truth personally through years of research and experience, and now offers *More than Words* to walk you through a journey of your very own! This adventure into the Bible will shatter your preconceived notions of God and will equip you with the tools necessary to understand His Word of Truth. "Nor did it bury the horrors predating civilisation. Ancient rites, old deities and savage ways can reappear in the places you least expect. Lifestyle journalist Katrine escaped past traumas by moving to a coast renowned for seaside holidays and natural beauty. But when a vast hoard of human remains and prehistoric artefacts is discovered in nearby Brickburgh, a hideous shadow engulfs her life." -- Cover. Fiction. Fantasy. Faerie Tales. Myth. THE RITUAL OF FORGETTING is the first book of the After Ever After trilogy, in which the heroines of four archetypal fairy tales (Snow White, Cinderella, Beauty & the Beast and Sleeping Beauty) transform through wicked-witch magic into true female sovereigns, in a mythical expression of the more complex, intimate love story after the "ever after." From the outside, fifteen-year-old Coley Sterling's life seems imperfect but normal, but for years she has buried her shame and guilt over a relationship that crossed the

line and now that she has a chance at having a real boyfriend, Reece, the lies begin to unravel. For fans of Jenny Han and Morgan Matson, a witty, poignant novel about second chances, letting go, and the unbreakable bonds of friendship. Six months ago, Ashlyn Montiel died in a bike accident. Her best friend, Cloudy, is keeping it together, at least on the outside. Cloudy's insides are a different story: tangled, confused, heartbroken. Kyle is falling apart, and everyone can tell. Ashlyn was his girlfriend, and when she died, a part of him went with her. Maybe the only part he cares about anymore. As the two people who loved Ashlyn best, Cloudy and Kyle should be able to lean on each other. But after a terrible mistake last year, they're barely speaking. So when Cloudy discovers that Ashlyn's organs were donated after her death and the Montiel family has been in touch with three of the recipients, she does something a little bit crazy and a lot out of character: she steals the letters and convinces Kyle to go on a winter break road trip with her, from Oregon to California to Arizona to Nevada. Maybe if they see the recipients—the people whose lives were saved by Ashlyn's death—the world will open up again. Or maybe it will be a huge mistake. First came Tunnels, then Deeper. Now Will's in Freefall. What will he

find when he hits the ground? As Will plummets down a subterranean void, it looks like the end for him. But it's just the beginning of a frightening new adventure in which he must face giant carnivorous spiders and the deadly Brights. And, even worse, two evil twins with a score to settle! But as the dark mysteries of the deep unfold, they not only reveal artifacts from ancient civilisations, but clues to a lost land at the end of the Earth... The terrifying third book in the mega-selling Tunnels series. An outrageous memoir by a preposterous and passionate pitchman. How do you come back from the point of no return? Seth McCoy was the last person to see his best friend, Isaac, alive, and the first to find him dead. It was just another night, just another party, just another time when Isaac drank too much and passed out on the lawn. Only this time, Isaac didn't wake up. Convinced that his own actions led to his friend's death, Seth is torn between turning his life around . . . or losing himself completely. Then he meets Rosetta: so beautiful and so different from everything and everyone he's ever known. But Rosetta has secrets of her own, and Seth soon realizes he isn't the only one who needs saving . . . A stubborn wolf. A curvy bear. A sizzling attraction neither of them could ignore. Mindi

Martin wasn't thinking of settling down. Something was in the water in Howling Valley, driving everyone to find their mates. She was determined to dodge that bullet, but then she met gorgeous, curvy bear shifter, Echo Norden. And her wolf made plans of her own—claim Echo. Echo was convinced she'd never find her mate. In all of her years, she hadn't met anyone worthy of her bear's affection. Her beast was headstrong and wanted a mate who was her equal. One scent of a beautiful wolf shifter and Echo knew one thing. She'd found her mate. Two problems were standing in her way. Her clan did not approve of Mindi as a suitable mate, and she was betrothed to another. The call to mate was overpowering the two women. Nothing was going to stand in their way of what fate had in store for them. Together they would face anyone who would dare try to keep them apart. Chilling horror at its best from an Edgar Allan Poe Award winner. 3 Decades, 12 Men, 3 Countries, and 1 Woman who refused to give up. After 35 years of silence, Author Mindi Hood takes you on a journey into a past filled with unimaginable experiences, into a future filled with hope. Hear Me Roar is the incredible true story of a woman who has been held captive, endured multiple sexual assaults, and survived violent attacks. Despite her traumatic past, she continues on a

path of self-discovery, faith, and love. Mindi has graciously allowed her story to be told in the hope that it may serve to inspire others to keep going and live out loud. The scandalous events described in this book occurred in the 1970s. You haven't heard of them because they were covered up by the U. S. government a cover-up almost as scandalous as the events themselves. Even now, nearly forty years later, the incidents are still classified, and it is with considerable risk to me and my informants that I reveal the truth to the public. Government spokesmen will attack this account and smear me for publishing it, but I believe that the American people, with their healthy skepticism, will refuse to be deceived by government distortions and denials. Fiction. In THIS BLOOD MEANS LIFE, the second book of the AFTER EVER AFTER trilogy, the former princesses of four famous fairy tales (Snow White, Sleeping Beauty, Cinderella and Beauty) must now become whole women and connect as true queens, heeding the wicked witch's call to claim their own forbidden power even in the face of banishment and ruin. Fiction. It begins with the unseen princess named Lonely by the wind of a City whose people have forgotten their bodies, hearts, and souls; as she escapes from her illusory tower to search for the

mysterious prince who never showed up. Guided in her journey by wilderness outcasts, gods, and wise animals, she gradually becomes human; discovering her first desire with a tortured dragon god of the desert, and awakening to the cycles of earth and family on a humble mountain farm. At last she soars to spiritual heights with her ghost-prince above the clouds, only to lose him again, falling backward into the painful truth of her own past as the polluted river goddess carries her to the City at the Heart of the World. Long ago, Lonely's own father built the City on top of a mystical swamp, displacing her prince's people and forcing them to transform into shape-shifting dream gods. Now her search for her beloved intertwines with that of the dragon god, a seductive huntress haunted by her past, an abused child who in her madness hides her soul in the form of a unicorn, and the witch who cursed Lonely but who paradoxically holds the key to her salvation. Battling the inner demons of rage and pain, all must find the courage to reclaim their own identities, wildness, and divinity in order to save the City and themselves from cataclysmic destruction. "LONELY IN THE HEART OF THE WORLD is an ancient mystery tour into our connected future. Mindi Meltz explores the deep nature of the City that is build upon the heart of

the world. She decries the establishment of that City through resource extraction, alienation and brute force, but then provides some keys to understanding the spirits and gods that animate the City, hints at what came before it, and strives to discover what lies beyond it. Lonely's quest is a poetic initiatory journey of a woman discovering the true world and her own place among the gods of our connected world. Lonely struggles with the dangers and consequences of abandoning the ancient rites and Mysteries. She finds her way to the power of love in an attempt to heal herself, and then her world. Lonely's journey is our collective story." Donald P. Dulchinos"

In Turkiss World, every living thing is surrounded by colorful lights called Lerils. These lights can change colors to reflect the mood or emotions that someone is feeling. Also, Lerils can be shared or given away to influence the feelings of others. Turkiss is divided into five entirely different countries: Aswin, Serrcerress, Darlock, Glacia, and Valkuriss. Mazlin, the main character lives in a peaceful farm in the forested lands of Aswin, near a border of the desert wasteland of Serrcerress. Darlock is a haunted swamp, Glacia is a country immersed almost entirely in snow, and Valkuriss is a bizarre world controlled by wizards. Mazlin's

father works him all day, his sister constantly tells on him, and his mother has no sympathy for his troubles. Mazlin always gets a fifteen minute break, shortly before noon. One day, he wanders in the woods and finds a mysterious home that has appeared in the odd end of the woods. Here, he meets a rich girl named Dana, who proposes a way for him to escape his miserable home life by having his family hauled off to jail. This plan succeeds, but unfortunately Mazlin winds up being taken to jail with them! Then, with the help of a stranger, he escapes and winds up in a secret organization called the Orchid Watchers. After meeting their leader and several other interesting folks, he embarks on a fantasy adventure with a girl named Mindi to find out why he got in trouble in the first place. NEW ENTRY IN THE WITCHES OF KARRIS SERIES BY NEW YORK TIMES BEST-SELLING AUTHOR ERIC FLINT & DAVE FREER Captain Pausert just can't catch a break! First, he became the mortal enemy of his fiancée, his home planet, the Empire—and even the Worm World, the darkest threat to mankind in all of space. All because he helped rescue three slave children from their masters. Of course, these three young women were the universally feared Witches of Karres—but how was he to know that?! And after he defeated the Worm World (with the help of

the witches, of course), the Empress herself had sent him on a secret mission to stop a nanite plague that was raging across the galaxy. But an enemy had somehow convinced the Imperial Fleet that he was actually a wanted criminal, so after a battle leaving his ship in urgent need of repairs, Pausert and the witches of Karres joined an interstellar traveling circus in order to save the galaxy. Now Pausert and the witches of Karres roam the spaceways again, this time dealing with a slaver-culture that somehow makes slaves happy to be in servitude, and a quest for a long-lost alien pet, during which the youngest witch, The Leewit, begins to come to her full powers as a healer—and of course generates chaos in her wake. For Pausert, it's all in a day's work. But would it be too much to ask for a vacation? At the publisher's request, this title is sold without DRM (Digital Rights Management). About the Witches of Karres series: "This sequel [to The Witches of Karres] does honor to the original. . . a rollicking ride. . . a rousing conclusion. . . "—Asimov's Science Fiction Magazine Fans of humorous science fiction will enjoy this outing."—School Library Journal on The Wizard of Karres About All the Plagues of Hell by Eric Flint & Dave Freer: ". . . a compelling tale of political, military, and magical

conflict . . .”—Booklist About Eric Flint: “A master of the genre.”—Booklist “An SF author of particular note . . . one who can entertain and edify in equal, and major, measure.”

—Publishers Weekly About Dave Freer: “Dave Freer always delivers compelling, fast-moving and addictive fantasy adventures.”—Garth Nix “The possibility of my imminent demise loomed overhead.” Heather Kütz would like nothing more than to be a regular teenager. After striking a deal with Death to save her sister, she gets stuck in an endless loop of lives, all ending just before her nineteenth birthday. When, during her eighteenth life, Death unexpectedly sweeps her into his domain, she’s ready to give him a piece of her mind. But then he tells her about a group of rebellious spirits bent on returning to the living world. If Heather fails to help Death, the spirits will flood the world, undoing Death’s power and obliterating life’s natural balance in one fell swoop. But Heather doesn’t blame them; she’s witnessed Death’s deception time and again. As the conflict escalates, Heather must ultimately choose who to stand beside — Death... or the lost souls literally fighting for their lives. A charming new story from the author of *Guess How Much I Love You* offers an original--and heartening--take on childhood anxiety. Once there was a girl

called Mindi who was afraid of something that no one else could see. This thing that she was afraid of, this thing that no one else could see, was a big goose. It came into her room as quietly as a thought comes into your head. . . .

. When a little girl named Mindi says she is being visited by a big goose--a scary creature that is visible only to her--her devoted dad and mom try everything they can think of to drive it away. But maybe some outside assistance is warranted from their wise friend Austen, a farmer who knows what is needed to help Mindi turn her mind to something new. In a sensitive exploration of childhood fears, Sam McBratney, the author of *Guess How Much I Love You*, narrates with charm, wit, and a touch of whimsy, while Linda Ólafsdóttir's delicate illustrations enhance the modern fairy-tale feel in a story that is sure to become a bedtime favorite. From the outside, fifteen-year-old Coley Sterling's life seems imperfect but normal, but for years she has buried her shame and guilt over a relationship that crossed the line and now that she has a chance at having a real boyfriend, Reece, the lies begin to unravel. Sarah Martin is bored. Thanks to her father's transfer from an inner-city police division to a small-town detachment, she is forced to live in Muskoka - no friends, no mall, no life. But

when Sarah does make a new friend - Mindi - life gets considerably more interesting, as the two become aware of suspicious activity surrounding Mindi's mother's boyfriend and an old barn on his property. When Sarah discovers that the barn actually holds a dozen wild black bears, she will stop at nothing to save them from their fate at the hands of an organized poaching ring. But in her efforts, she puts lives in peril. Sarah Martin isn't the only outsider in her small Muskoka community. Life gets a whole lot more interesting for Sarah when she uncovers mysteries that need solving. This two-book collection of Sarah Martin Mysteries includes: *The Whole, Entire, Complete Truth* When Sarah discovers a poaching ring on a neighbouring farm in her small Muskoka town, she will stop at nothing to save the wild black bears. *The Law of Three* When Sarah, intrigued by rumours about the Hopper family, tries to get to the bottom of an alleged murder, she finds that the family has another secret: they're Wiccans.
