When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable? This is a reproduction of the original artefact. "A Flask of Wine, a Book of Verse — and Thou, Beside me, singing in the Wilderness," is only one of the memorable verses from Edward FitzGerald's translations of poems by the 11th century Persian sage Omar Khayyám. This magnificent version of The Rubáiyát of Omar Khayyám reproduces the edition published by Hodder & Stoughton of London in 1909, in which the timeless poems are accompanied by full-color images by Golden Age illustrator Edmund Dulac. Critics and collectors have long debated which book represents the peak of Dulac's career, and many agree that his affinity for Persian art makes this gloriously illustrated volume a strong contender. This book (hardcover) is part of the TREDITION CLASSICS. It contains classical literature works from over two thousand years. There are many variations in technique of the operations employed for these tumors as well. In this volume we have illustrated our own personal preferences in approach to soft tissue sarcomas with the hope it will serve as a useful guide to the surgeon who is faced with one or more of these problems. None of the operations depicted in this manual are original with us but they are procedures and approaches we have found effective for the clinical management of this family of tumors. In presenting this volume we wish to acknowledge our gratitude to our surgical teachers, our present and past associates in surgical oncology, our colleagues in the other oncologic disciplines, and our patients whose treatment is illustrated herein. We are indebted to Dr. Saul Kay, Professor of Pathology, and Dr. James Walsh, Associate Professor of Radiology, for providing the illustrations of histopathology and radiologic imaging in the early chapters. We particularly appreciate the superb artwork of our enthusiastic teammates, Trudy Nicholson and Jane Hurd, as their contribution is the crux of our endeavor. Walter Lawrence Jr., M.D. James P.
