****Testimonial****I just
wanted to drop you guys a line

and tell you that I passed my
final CLEP exam last Monday
which gives me all of the
credits I need to graduate. I
have taken 30 credits worth of
CLEP exams and I've passed
them all by using your study
guides. I actually purchased
one of your study guides and
failed my first test. I didn't fail
because of your guide though, I
failed because I didn't manage
my time effectively and I ran
short. I looked at your study
guide after failing though, and
a lot of the information on your
study guide was very relevant
to what was on the test. So, I
tried again with a different test
and a different study guide of
yours. I passed. This pattern
continues for 30 credits. I
graduate on June 9th thanks to
you guys, so I wanted to say
thank you. The guides were
worth every penny. Thanks, -
John S. ****I would like to
thank you for your study
guides. I will be graduating in
December with two bachelor
degrees and CLEP helped me
get there quickly. I gained 36
credits through CLEP and your
study guides helped me

thepracticingmindinstitute.com

through almost all of them. I can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!! -Erin W.****

book bridges the gap on how to transpose knowledge and research into structured and coherent answers to problem questions while earning a law degree. Aimed at undergraduates, international students, and foundation and SQE candidates, the book gives a step-by-step study guide on how to navigate what a problem question is asking you to do. The Public International Law Study Guide for Students Feb 26 2023 A sound understanding of public international law is indispensable for any lawyer,

whether working in an international or domestic context. It is therefore important that students have a thorough theoretical understanding of international law issues, and are able to apply the relevant international legal rules to a given set of facts, so as to arrive at a legally coherent conclusion. This practical aspect of learning international law is often neglected in favour of more theoretical aspects - which is where this book comes in. The book offers a series of hypothetical practical cases in public international law, including some of its specialised branches, such as international human rights law and international criminal law. It challenges students to practise and familiarise themselves with the methodology and to write solutions to practical international legal questions. The book is in two parts: part one contains practical (exam-like) questions, while part two contains the solutions. The practical questions in part one

are organised by subject, such as treaty law or state responsibility. One chapter is dedicated to more complex 'interconnected' cases, where students are asked to tackle problems which span multiple potential cases and topics.

ENDORSEMENT 'An extremely interesting and innovative text that students studying Public International Law should find invaluable.' Associate Professor Joanne Sellick Associate Dean for Teaching and Learning, University of Plymouth
