*White Mountains Hiking History Jan 29 2021 Since the time of pioneer settlers Abel and Ethan Allen Crawford, explorers and adventurers have been lured by the stunning peaks and lush valleys of New Hampshire's White Mountains. In the nearly two centuries since the Crawfords constructed their first crude footpath onto the heights of Mount Washington and the Presidential Range, the White Mountain trail system has evolved into an intricate network featuring more than 1,400 miles of marked paths. Retrace the steps of early mountain guides such as Charles Lowe and Allen "Old Man" Thompson and learn how these early path-makers made New England's most popular and extensive mountain trail system possible. Longtime northern New Hampshire hiking columnist and guidebook author Mike Dickerman traces the fascinating story of this evolution with this new collection of profiles and reflections on the early trails and trailblazers of the region.*

*Life Entrepreneurs Oct 06 2021 "An inspirational and practical guide for anyone who wants to incorporate the dynamic skills of entrepreneurs into their own lives and work. A new generation of "life entrepreneurs" is emerging: people who apply their vision, talents, creativity, and energy not only to their work but to their entire lives, changing the world for themselves and those around them. In this book, successful entrepreneurs Christopher Gergen and Gregg Vanourek draw on numerous interviews with fifty-five leading entrepreneurs worldwide as well as the wisdom of multiple thought leaders to provide vivid examples, moving vignettes, concrete frameworks, and practical strategies for revving up our work and play through entrepreneurial leadership. This book starts by providing strategies for integrating life, work, and purpose and ends by capturing the implications of the current entrepreneurial boom for our workplaces, learning institutions, communities, and families. Christopher Gergen (Washington, D.C.) is a founding partner of New Mountain Ventures, co-founder and chairman of SMARTHINKING, Adjunct Professor and Director of the Entrepreneurial Leadership Initiative at Duke University, and a life-long entrepreneur, Gregg Vanourek (Thornton, CO) is a founding partner of New Mountain Ventures, former CEO of Vanourek Consulting Solutions, and former Senior Vice*

*Camp Venture: A Story of the Virginia Mountains Sep 17 2022 "I'm tired, and the other pack mules are tired, and from the way you move I imagine that the rest of you donkeys are tired!" called out Jack Ridsdale, as the last of the mules and their drivers scrambled up the bank and gained a secure foothold on the little plateau. "I move that we camp here for the night. All in favor say 'aye.' The motion's carried unanimously." With that the tall boy threw off the pack that burdened his shoulders, set his gun up against a friendly tree and proceeded in other ways to relieve himself of the restraints under which he had toiled up the steep mountain side since early morning, with only now and then a minute's pause for breath. "This is a good place to camp in," he presently added. "There's grazing for the mules, there's timber around for fire wood and I hear water trickling down from the cliff yonder. So 'Alabama,' which is Cherokee eloquence meaning 'here we rest.'" The party consisted of five sturdy boys and a man, the Doctor, not nearly so stalwart in appearance, who seemed about twenty-eight or thirty years old. Each member of the party carried a heavy pack upon his back and each had a gun slung over his shoulder and an axe hanging by his girdle. There were four packmules heavily laden and manifestly weary with the long climb up the mountain. As the boys were scarcely less weary than the mules they eagerly welcomed Jack Ridsdale's decision to go no farther that day, but rest where they were for the night. "Now then," Jack resumed as soon as he got his breath again—a thing requiring some effort in the rarefied atmosphere of the high mountain peak—"we're all starved. The first thing to do is to get a fire started and get the kettle on for supper. If some of you fellows will unload the mules and get out the necessary things I'll chop some wood and we'll have a fire going in next to no time." With that he swung his axe over his shoulder and stalked off into the nearby edge of the wood land. There with deft blows—for he was an expert with the axe—he quickly converted some fallen limbs and dead trees into a rude sort of fire wood which the other boys shouldered and carried to the glade where the Doctor had started a little fire that needed only feeding to become a great one. During their laborious climb up the steep mountain side the party had found the early November day rather too warm for comfort; but now that the sun had sunk behind the mountain, and evening was drawing near, there was a sharp feeling of coming frost in the atmosphere, and as it would be necessary to sleep out of doors that night with no shelter but the stars, Jack continued his chopping until a great pile of dry wood lay near the fire ready for use during the night.*

*Venture Oct 14 2019 VENTURE is a travelogue that traces the journey of two accidental entrepreneurs as they set out to help others experience the world through the universal language of running. Exploring the roads and trails less travelled would require immersion in a dizzying array of cultures and countries, a sense of adventure, a dreamer's imagination, plenty of grit, a dash of luck, a cast of the right characters and the ability to laugh when things go terribly wrong. Through the lens of one small startup finding its place within the ever-evolving landscape of adventure travel, the reader is transported to locations as diverse as the sands of the Sahara, the glaciers of Patagonia, the vineyards of Slovenia, the emerald hills of Ireland, the wild coastline of South Africa, the towering forests of the Pacific Northwest and the astounding wildlife-filled plains of the Maasai Mara in Kenya. Along the way, stories and anecdotes offer insight into the business of tourism and spark consideration of the potential paths towards a more sustainable future. Merging running, travel, food, history, world culture and plenty of entrepreneurial hustle, prepare to let yourself be entertained, carried away and ultimately inspired to set out into the great unknown.*

Organized geographically in an easy-to-use format, Insiders' Guide to Colorado's Mountains has all the information necessary for a fun-filled trip to the Rockies, from where the best snow is to where to catch a trophy trout to where to soak your aching bones at the end of another fun-filled day.*

*High Drama Nov 26 2020 One afternoon in 1987, two renegade climbers in Berkeley, California, hatched an ambitious plan: under the cover of darkness, they would rappel down from a carefully scouted highway on-ramp, gluing artificial handholds onto the load-bearing concrete pillars underneath. Equipped with ingenuity, strong adhesive, and an urban guerilla attitude, Jim Thornburg and Scott Frye created a serviceable climbing wall. But what they were part of was a greater development: the expansion and reimagining of a sport now slated for a highly anticipated Olympic debut in 2020. High Drama explores rock climbing's transformation from a pursuit of select anti-establishment vagabonds to a sport embraced by competitors of all ages, social classes, and backgrounds. Climbing magazine's John Burgman weaves a multi-layered story of traditionalists and opportunists, grassroots organizers and business-minded developers, free-spirited rebels and rigorously coached athletes.*

*Mountaineering Tourism Jun 14 2022 In May 1993 the British Mountaineering Council met to discuss the future of high altitude tourism. Of concern to attendees were reports of queues on Everest and reference was made to mountaineer Peter Boardman calling Everest an 'amphitheater of the ego'. Issues raised included environmental and social responsibility and regulations to minimize impacts. In the years that have followed there has been a surge of interest in climbing Everest, with one day in 2012 seeing 234 climbers reach the summit. Participation in mountaineering tourism has surely escalated beyond the imagination of those who attended the meeting 20 years ago. This book provides a critical and comprehensive analysis of all pertinent aspects and issues related to the development and the management of the growth area of mountaineering tourism. By doing so it explores the meaning of adventure and special reference to mountain-based adventure, the delivering of adventure experience and adventure learning and education. It further introduces examples of settings (alpine environments) where a general management framework could be applied as a baseline approach in mountaineering tourism development. Along with this general management framework, the book draws evidence from case studies derived from various mountaineering tourism development contexts worldwide, to highlight the diversity and uniqueness of management approaches, policies and practices. Written by leading academics from a range of disciplinary backgrounds, this insightful book will provide students, researchers and academics with a better understanding of the unique aspects of tourism management and development of this growing form of adventure tourism across the world.*

Alpine Climbing Dec 20 2022 [CLICK HERE](#) to download the chapter "The Alpine Environment" from Alpine Climbing \* For climbers who know the basics and are ready to venture at higher altitudes \* Written by longtime guides and climbing instructors certified by the American Mountain Guide Association (AMGA) \* Recommended by the AMGA \* Teaches situational thinking and learning as well as technique This intermediate-level guide addresses tools, skills, and techniques used in alpine terrain including rock, snow, ice, and glaciers at moderate altitude -- approximately 5000 meters (16,000 feet) and lower. The technical protection systems are covered, of course. But 30 years of alpine climbing experience has convinced the authors that mastery -- and safety -- lie in the far more difficult task of knowing exactly which techniques to use, where and when. Therefore, they teach step-by-step decision-making skills, providing scenarios, checklists, and self-posed questions to inform the decision process. Alpine Climbing assumes some prior knowledge, primarily in rock climbing skills and techniques. Basic knots, belaying, rappelling, building rock anchors, leading, placing rock protection, and movement skills on rock: variations of these skills that are of particular value in the alpine environment are addressed in this book.

*A complete guide to Alpine Ski touring Ski mountaineering and Nordic Ski touring* Aug 16 2022 There is something extraordinarily special about sliding on snow that has excited generations of snow sports enthusiasts. Add to this the dimension of travelling through the mountains and the result is a recipe for some of the best outdoor activity days you could ever imagine. I have been fortunate to share some of these adventures with Henry Branigan: Skiing off the summit of Mount Blanc at dawn or, equally enjoyable, skiing under the northern lights from hut to hut in Norway, still my all-time favourite way of travelling through the mountains. A complete guide to alpine ski touring, ski mountaineering and nordic ski touring sets out to provide the fundamentals about going off piste and then journeying through mountain terrain, in a logical, easy to read format. Adapting ski technique for various off piste conditions is an essential skill that makes all the difference between surviving and savouring adventures off piste. The book also covers the fundamental mountaineering knowledge including navigation, weather and avalanches that are essential before venturing beyond the confines of a ski area. Equipment and planning a tour are covered, whether it is in an Alpine or Nordic environment. All in all this is a very comprehensive and valuable resource for anyone aspiring to venture into the mountains on skis. Bob Kinnaird Principal Glenmore Lodge National Outdoor Training Centre

*Eiger Dreams* Feb 22 2023 No one writes about mountaineering and its attendant hardships and victories more brilliantly than critically acclaimed author Jon Krakauer. In this collection of his finest work from such magazines as *Outside* and *Smithsonian*, he explores the subject from the unique and memorable perspective of one who has battled peaks like K2, Denali, Everest, and, of course, the Eiger. Always with a keen eye, an open heart, and a hunger for the ultimate experience, he gives us unerring portraits of the mountaineering experience. Yet *Eiger Dreams* is more about people than about rock and ice—people with that odd, sometimes maniacal obsession with mountain summits that sets them apart from other men and women. Here we meet Adrian the Romanian, determined to be the first of his countrymen to solo Denali; John Gill, climber not of great mountains but of house-sized boulders so difficult to surmount that even demanding alpine climbs seem easy; and many more compelling and colorful characters. In the most intimate piece, “The Devils Thumb,” Krakauer recounts his own near-fatal, ultimately triumphant struggle with solo-madness as he scales Alaska’s Devils Thumb. *Eiger Dreams* is stirring, vivid writing about one of the most compelling and dangerous of all human pursuits.

Stories from the White Mountains Dec 16 2019 Throughout its rich and varied history, New Hampshire's White Mountains region has played host to explorers and adventurers, lumberjacks and locomotives, as well as grand hotels and their well-heeled guests. In this new anthology of historical writing, local author Mike Dickerman captures the spirit, tenacity and resourcefulness of those who have lived, worked and played in these Great White Hills. His stories also bring to life dramatic events that scarred the landscape long ago, such as tragic plane crashes and the devastating Hurricane of 1938. The book spans the ages, from the logging railroads of yesteryear to the forest fire lookout towers of the mid-twentieth century, and covers the expanse of these environs, from the snow-laden heights of Mount Washington to the stately grounds of the Mountain View House in Whitefield.

Venture to the Smokies Jul 15 2022 Readers can explore the meadows, mountains, and forests of the Great Smoky Mountains National Park with Venture the traveling teddy bear as a guide, and complete puzzles, games, and other activities.

Lou Whittaker Nov 19 2022 In *Lou Whittaker: Memoirs of a Mountain Guide*, Lou is at his storytelling best as he shares adventures and wisdom honed from the wild times of his youth to his more recent climbs with some of the country's best mountaineers.
