Just Harvest Jul 03 2021 When a class-action lawsuit against the US government results in a billion dollar settlement for the aggrieved parties, you'd expect the story to be headline news . . . to be posted on social media everywhere . . . to be adapted to film or even to a popular legal procedural series on TV . . . So why then have so many people never heard of Pigford vs. Glickman? Or the follow-up lawsuit, Pigford II? Or the Black Farmers Case, as the pair of these legal actions is often called? Could it be that the heart-wrenching story of Black farmers in America, and the monumental legal case that brought long-sought justice to them, is rarely told because it reflects so poorly on the US and its treatment of those whose ancestors helped make the nation an agricultural giant in the first place? Whatever the reason, the time to tell the full story has come and the person to share the gripping details is Greg Francis, one of the lead counsels in the historic case that finally helped Black farmers achieve equity. In *Just Harvest*, Francis narrates the dramatic twists and turns of the legal battle fought and won, and evidences the many years of ingrained discrimination and racism that preceded it. Awareness of this story makes us all witnesses to the history still unfolding—and while parts of what is recounted herein will enrage you, the hope is that this book will also inspire, inform, and motivate you to join the continuing fight for the rights of all Black farmers now and in the future.

Game, Set, Cash! Mar 31 2021 Inside the secret world of tennis court-siding. Brad Hutchins has been living a young bloke's dream: getting paid to travel the world and watch sport. Sitting court-side on the pro tennis circuit, he uses his phone to transmit results to a gambling syndicate, taking advantage of the time delay in TV broadcasts to beat other online punters to the big pay-offs. His stories from life on the road capture the adventures and mishaps that come with following the world's best tennis players and partying in a new country every week. But like card counters in casinos, court-siders are despised by the tennis establishment. The more time Brad spends at tournaments, the harder it becomes for him to evade the security guards who are hell-bent on ejecting him from matches. The resulting cat-and-mouse chases will appeal to anyone who loves the roguish spirit of *The Wolf of Wall Street* or *Catch Me If You Can*. Brad Hutchins spent his youth playing sports and travelling the world, before finding his dream job as a tennis trader. Born and raised in Brisbane, he has lived and worked in the UK and Canada, and now teaches primary school students on the Gold Coast. *Game, Set, Cash!* is his first book.

Windows 10: The Missing Manual Oct 06 2021 With Windows 8, Microsoft completely reimagined the graphical user interface for its operating system, which now runs on both desktop PCs and tablets, but the overhaul was not without hitches and its dueling UIs (one designed for touch, the other for keyboards and mice) created significant confusion for users. Windows 10 (a free update to users of Windows 8 or Windows 7) fixes a number of the problems introduced by the revolution in Windows 8 and offers plenty of new features, such as the new Spartan web browser, Cortana voice-activated "personal assistant," new universal apps (that run on tablet, phone, and computer), and more. But to really get the most out of the new operating system, you're going to need a guide. Thankfully, Windows 10: The Missing Manual will be there to help. Like its predecessors, this book from the founder of Yahoo Tech, previous New York Times columnist, bestselling author, and Missing Manuals creator David Pogue illuminates its subject with technical insight, plenty of wit, and hardnosed objectivity for beginners, veteran standalone PC users, new tablet owners, and those who know their way around a network.
