**Deep Black** Jun 18 2022 They are on the cutting edge of technology--the top-secret, billion-dollar instruments of super-power espionage. They are spy satellites--the means by which the super-powers keep tabs on each other in the deep black of space. Excellent . . . Highly recommended --Booklist.

Spyworld Nov 11 2021 "For twenty years Canada has been spying on other nations. Outside public scrutiny or Parliamentary review and frequently acting at the behest of U.S. and U.K. intelligence agencies. Canada has been spying electronically from its embassies in capitals as far-flung as Moscow, New Delhi, Bucharest, Rabat and Caracas. It has then shared the results with its allies. There is every reason to believe Canada is still doing "embassy collection" today. Techniques developed during the "Cold War" have been honed for political and economic espionage in the nineties." "The agency responsible is the top-secret Communications Security Establishment (CSE) of whose existence most Canadians are unaware. CSE has also used sophisticated equipment, much of it provided by the U.S., to listen in on Canadian and on

American citizens, raising vital questions about civil liberties and the invasion of privacy. It has intercepted communications from the Soviet embassy in Ottawa; from British cabinet ministers; from the governments of France and Quebec; from suspected Sikh terrorists in India; and from the Kremlin. Its record is impressive: if it wants to, it can intercept almost any phone, fax or radiowave transmission." "How do we know all this? Because one man, Mike Frost, a communications officer at CSE for nineteen years, has decided that in the post-"Cold War" era it is time for the Canadian public to be told what its government has been doing and for a public debate to ensue." "As he tells the story of his career, he paints a remarkable picture of the Security Establishments of Canada, the U.S. and the U.K. The Americans in particular are revealed as possessing high-tech wizardry that they use for political and economic spying - including, according to Frost, highly controversial spying on the Canadian government. Much of Canada's spying from 1972 to 1990 was undertaken for the Americans. Frost and his immediate boss were at the centre of the "embassy-collection" scheme, which was code-named "Project Pilgrim". The story of how "Pilgrim" grew by trial and error into a highly successful operation is full of drama, comedy, triumphs and frustrations." "Frost is proud of the achievements, but the questionable aspects of CSE's activities have led him to go public on both CSE's successes and its excesses. While scrupulously careful about not jeopardizing national security or endangering the lives of agents in the field, he nonetheless reveals an institution whose powers are potentially so great that they need to be subject to Parliamentary control and public scrutiny. Spyworld will undoubtedly spur debate and controversy."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

**The Puzzle Palace** Feb 26 2023 The first book ever written on the National Security Agency from the New York Times bestselling author of *Body of Secrets* and *The Shadow Factory*. In this groundbreaking, award-winning book, James Bamford traces the NSA's origins, details its inner workings, and explores its far-flung operations. He describes the city of fifty thousand people and nearly twenty buildings that is the Fort Meade headquarters of the NSA—where there are close to a dozen underground acres of computers, where a significant part of the world's communications are monitored, and where reports from a number of super-sophisticated satellite eavesdropping systems are analyzed. He also gives a detailed account of NSA's complex network of listening posts—both in the United States and throughout much of the rest of the world. When a Soviet general picks up his car telephone to call headquarters, when a New York businessman wires his branch in London, when a Chinese trade official makes an overseas call, when the British Admiralty urgently wants to know the plans and movements of Argentina's fleet in the South Atlantic—all of these messages become NSA targets. James Bamford's illuminating book reveals how NSA's mission of Signals Intelligence (SIGINT) has made the human espionage agent almost a romantic figure of the past. Winner Best Investigative Book of the Year Award from Investigative Reporters & Editors “The Puzzle Palace has the feel of an artifact, the darkly revealing kind. Though published during the Reagan years, the book is coolly subversive and powerfully prescient.”—The New Yorker “Mr. Bamford has emerged with everything except the combination to the director's safe.”—The New York Times Book Review

**Body of Secrets** Jan 25 2023 The National Security Agency is the world's most powerful, most far-reaching espionage. Now with a new afterword describing the security lapses that preceded the attacks of September 11, 2001, *Body of Secrets* takes us to the inner sanctum of America's spy world. In the follow-up to his bestselling *Puzzle Palace*, James Banford reveals the NSA's hidden role in the most volatile world events of the past, and its desperate scramble to meet the frightening challenges of today and tomorrow. Here is a scrupulously documented account—much of which is based on unprecedented access to previously undisclosed documents—of the agency's tireless hunt for intelligence on enemies and allies alike. *Body of secrets* is a riveting analysis of this most clandestine of agencies, a major work of history and investigative journalism. **The Puzzle Palace** Oct 10 2021 “The Puzzle Palace - An Inside View of Decline in Our Schools” is a revealing look at the decline of public education in Louisiana. Student test scores

have steadily declined over the years corresponding with an increasing number of high school dropouts in many areas in Louisiana. This has resulted in the closing of public schools that have not met established academic standards. There has been a corresponding increase in home schooling along with an increase in attendance at private schools, private Christian schools, and Charter schools. The responsibility for this trend has been targeted at the local schools and more specifically, the classroom teacher. This book shows that the factors contributing to the above trends are much more complex than previously thought and have progressed over a period of time. It also shows that policy makers and/or lawmakers make educationally unsound decisions and then require the local schools to implement them; hence “The Puzzle Palace,” There is an underlying negative spiritual element that cannot be denied that is also part of the overall problem picture. The stories in this book have been based on actual events but job descriptions and most details have been changed. The opinions expressed are the author's and are based on thirty one years of experience in the school system. In the end, Burnham places the ultimate blame not completely upon 'The Puzzle Palace' itself, but upon mankind's eternal enemy who has absolute disregard for the sacred creation of man, himself. For Burnham, if those who have been granted ultimate responsibility for the education system would understand one of his modes of operation, “to destroy a people or a nation” by way of, “the parallel decline of the schools,” perhaps 'The Puzzle Palace' would find more appropriate ways of policy implementation thus reversing educational decline rather than promoting its proliferation. Hope exists, if the Palace would listen to the masses.

**Sea People** Nov 30 2020 A blend of Jared Diamond's Guns, Germs, and Steel and Simon

Winchester's Pacific, a thrilling intellectual detective story that looks deep into the past to uncover who first settled the islands of the remote Pacific, where they came from, how they got there, and how we know. For more than a millennium, Polynesians have occupied the remotest islands in the Pacific Ocean, a vast triangle stretching from Hawaii to New Zealand to Easter Island. Until the arrival of European explorers they were the only people to have ever lived there. Both the most closely related and the most widely dispersed people in the world before the era of mass migration, Polynesians can trace their roots to a group of epic voyagers who ventured out into the unknown in one of the greatest adventures in human history. How did the earliest Polynesians find and colonize these far-flung islands? How did a people without writing or metal tools conquer the largest ocean in the world? This conundrum, which came to be known as the Problem of Polynesian Origins, emerged in the eighteenth century as one of the great geographical mysteries of mankind. For Christina Thompson, this mystery is personal: her Maori husband and their sons descend directly from these ancient navigators. In *Sea People*, Thompson explores the fascinating story of these ancestors, as well as those of the many sailors, linguists, archaeologists, folklorists, biologists, and geographers who have puzzled over this history for three hundred years. A masterful mix of history, geography, anthropology, and the science of navigation, *Sea People* combines the thrill of exploration with the drama of discovery in a vivid tour of one of the most captivating regions in the world. *Sea People* includes an 8-page photo insert, illustrations throughout, and 2 endpaper maps.

*Shahnameh* Aug 28 2020 The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the *Shahnameh* to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid

princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

**Inside an Ancient Assyrian Palace** Mar 03 2021 One of the best-known images of the ancient Near East is an intriguing nineteenth-century color lithograph reconstructing the throne room of an Assyrian palace. Executed shortly after the archaeological rediscovery of Assyria, a land theretofore known only from the Bible, it was published by the most famous among early

excavators of Assyrian ruins, Austen Henry Layard. Over time and despite criticisms, the picture has shaped the understanding and reception of ancient Mesopotamian architecture and architectural decoration. Inside an Ancient Assyrian Palace studies this influential image in depth, both at the time of its creation in London in the eventful year 1848 and in terms of its afterlife. A hidden inscription reveals unsuspected contributions by the renowned architect-designer Owen Jones and his colleague the architect-Egyptologist Joseph Bonomi. Also unexpected is the involvement of an enigmatic German artist who later emigrated to America and whose previous career in Europe had been lost to scholarship. This book will be of interest to scholars and students of art history and the ancient Near East. It will also be of relevance to museum visitors and others interested in the ancient world in general, in the art of the nineteenth century, and in design and historical reconstruction.

*Running With The Big Dogs* Jun 25 2020 Sybil Norcroft has spent nearly a lifetime to establish herself as a person of significance in a patriarchal world. Her successes have come at great cost and are, in sum, a mixed blessing. The cost to her family is heightened when, as Surgeon General, she must help her government and her fellow citizens avoid a financial catastrophe owing, in part, to the expenses of health care. She must give her blessing to a hard-line requirement by the Chinese to increase their lending to the U.S. When the Russian mafia--in collusion with the kleptocratic Russian government--launches an attack on the U.S. stock markets in a bid to cripple America, Sybil must aid in a brutal behind-the-scenes cyber fight which she conducts from her position as a secret CIA agent. It comes as no surprise when the

Russian government and criminal organizations retaliate. The personal threat to Sybil goes beyond herself and to her family, and she is required to take risks she would never have imagined. There is great danger and great reward in Sybil's latest endeavor. Is she woman enough to handle both?

**A Pretext for War** Feb 14 2022 A Pretext for War reveals the systematic weaknesses behind the failure to detect or prevent the 9/11 attacks, and details the Bush administration's subsequent misuse of intelligence to sell preemptive war to the American people. Filled with unprecedented revelations, from the sites of "undisclosed locations" to the actual sources of America's Middle East policy, A Pretext for War is essential reading for anyone concerned about the security of the United States. Acclaimed author James Bamford—whose classic book The Puzzle Palace first revealed the existence of the National Security Agency—draws on his unparalleled access to top intelligence sources to produce a devastating expose of the intelligence community and the Bush administration.

**Working on the Dark Side of the Moon** Sep 21 2022 To most Americans, the NSA is an organization shrouded in secrecy, where the most clandestine of operations are carried out in the name of national security. Dr. Thomas Willemain, successful software entrepreneur and statistics professor, spent the equivalent of three years alternating between his life "outside" and working "inside" at the NSA and an affiliated, shadowy think tank. Once inside, Dr. Willemain would be challenged to adjust to life in an intense, complex and sometimes alien organization, while also encountering brilliant and quirky colleagues, the moral challenges of wielding math and statistics as weapons, a charming (if kitschy) gift shop, and ultimately, some of the most rewarding time of

his career. A deeply personal account of the years spent within the most secretive organization in the world, *Working on the Dark Side of the Moon* explores the range of emotions an outsider experiences while crossing over to the "inside." It also shows the positive side of an Agency whose secrecy hides dedicated men and women devoted to protecting the country while honoring the Constitution. Thomas Reed Willemain received the BSE (summa cum laude) from Princeton University and the PhD from Massachusetts Institute of Technology. His academic career has included faculty positions at M.I.T., Harvard's Kennedy School, and Rensselaer Polytechnic Institute, where he is Professor Emeritus of Industrial and Systems Engineering. He is also a founder and Senior Vice President at Smart Software, Inc. in Boston. He served in the Intelligence Community as an Expert Statistical Consultant at the National Security Agency and as a member of the research staff at the Institute for Defense Analyses/Center for Computing Sciences.

**The Puzzle Palace** Jun 06 2021 THE PUZZLE PALACE PLOT SUMMARY: Echoes of the Iranian hostage crisis reverberate when one of the historical ghosts from the abortive attempt to rescue 52 American diplomats arises to illustrate the hysteria which took place in the Pentagon following the mission's failure. A rogue group in the Operations Directorate of the Department of the Army, sanctioned to conduct secret covert operations beyond the oversight of civilian Department of Defense officials, operates totally out of control. Newly promoted brigadier general Ken Grainger, preferring to serve in the field with troops, but compelled to accept a posting at the Pentagon in Washington, D.C., is assigned to the Operations Directorate. He finds that senior Army leadership has authorized and financed secret operations in the Directorate that

far exceeded expectations and in the process place Grainger's career and even his life in jeopardy. When it becomes clear that hundreds of millions of dollars are being diverted from legitimate Army programs and used for illegal activities, Grainger enlists the aid of some old Army buddies to expose the involvement of the outlaw group and the senior Army leaders who have failed to meet and maintain their moral leadership responsibility.

**Facts and Fears** Feb 02 2021 The former Director of National Intelligence speaks out in this New York Times bestseller When he stepped down in January 2017 as the fourth United States Director of National Intelligence, James Clapper had been President Obama's senior intelligence advisor for six and a half years, longer than his three predecessors combined. He led the US Intelligence Community through a period that included the raid on Osama bin Laden, the Benghazi attack, the leaks of Edward Snowden, and Russia's influence operation on the 2016 U.S election. In *Facts and Fears*, Clapper traces his career through the growing threat of cyberattacks, his relationships with Presidents and Congress, and the truth about Russia's role in the presidential election. He describes, in the wake of Snowden and WikiLeaks, his efforts to make intelligence more transparent and to push back against the suspicion that Americans' private lives are subject to surveillance. Finally, it was living through Russian interference in the 2016 presidential election and seeing how the foundations of American democracy were--and continue to be--undermined by a foreign power that led him to break with his instincts grown through more than five decades in the intelligence profession, to share his inside experience. Clapper considers such controversial questions as, is intelligence ethical? Is it moral to intercept communications or to photograph closed societies from orbit? What are the limits of what we should be allowed to do? What protections should we give to the private citizens of the world, not to mention our fellow Americans? Is there a time that intelligence officers can lose credibility as unbiased reporters of hard truths by asserting themselves into policy decisions? *Facts and Fears* offers a privileged look inside the United States intelligence community and addresses with the frankness and professionalism for which James Clapper is known some of the most difficult

challenges in our nation's history.

**The Boy with a Bird in His Chest** Sep 28 2020 Longlisted for The Center for Fiction 2022 First Novel Prize “A modern coming-of-age full of love, desperation, heartache, and magic” (Andrew Sean Greer, Pulitzer Prize–winning author) about “the ways in which family, grief, love, queerness, and vulnerability all intersect” (Kristen Arnett, New York Times bestselling author). Perfect for fans of *The Perks of Being a Wallflower* and *The Thirty Names of Night*. Though Owen Tanner has never met anyone else who has a chatty bird in their chest, medical forums would call him a Terror. From the moment Gail emerged between Owen’s ribs, his mother knew that she had to hide him away from the world. After a decade spent in hiding, Owen takes a brazen trip outdoors in the middle of a forest fire, and his life is upended forever. Suddenly, Owen is forced to flee the home that had once felt so confining and hide in plain sight with his uncle and cousin in Washington. There, he feels the joy of finding a family among friends; of sharing the bird in his chest and being embraced fully; of falling in love and feeling the devastating heartbreak of rejection before finding a spark of happiness in the most unexpected place; of living his truth regardless of how hard the thieves of joy may try to tear him down. But the threat of the Army of Acronyms is a constant, looming presence, making Owen wonder if he’ll ever find a way out of the cycle of fear. A heartbreaking yet hopeful novel about the things that make us unique and lovable, *The Boy with a Bird in His Chest* grapples with the fear, depression, and feelings of isolation that come with believing that we will never be loved, let alone accepted, for who we truly are, and learning to live fully and openly regardless.

**Red Phoenix** Jan 21 2020 Violent riots formented by foreign agents are breaking out in South

**The Puzzle of Prison Order** Dec 12 2021 Many people think prisons are all the same-rows of cells filled with violent men who officials rule with an iron fist. Yet, life behind bars varies in incredible ways. In some facilities, prison officials govern with care and attention to prisoners' needs. In others, officials have remarkably little influence on the everyday life of prisoners, sometimes not even providing necessities like food and clean water. Why does prison social order around the world look so remarkably different? In *The Puzzle of Prison Order*, David Skarbek develops a theory of why prisons and prison life vary so much. He finds that how they're governed-sometimes by the state, and sometimes by the prisoners-matters the most. He investigates life in a wide array of prisons-in Brazil, Bolivia, Norway, a prisoner of war camp, England and Wales, women's prisons in California, and a gay and transgender housing unit in the Los Angeles County Jail-to understand the hierarchy of life on the inside. Drawing on economics and a vast empirical literature on legal systems, Skarbek offers a framework to not only understand why life on the inside varies in such fascinating and novel ways, but also how social order evolves and takes root behind bars.

**Now Is the Time for Running** Mar 23 2020 Just down the road from their families, Deo and his friends play soccer in the dusty fields of Zimbabwe, cheered on by Deo's older brother, Innocent. It is a day like any other... until the soldiers arrive and Deo and Innocent are forced to run for their lives, fleeing the wreckage of their village for the distant promise of safe haven in South

Africa. Along the way, they face the prejudice and poverty that greet refugees everywhere, but eventually Deo finds hope, joining dozens of other homeless, displaced teens on the World Cup Street Soccer team--a possible ticket out of extreme hardship to a new life. Captivating and timely, *Now Is the Time for Running* is a staggering story of survival that follows Deo and his brother on a transformative journey that will stay with readers long after the last page.

Body Of Secrets Apr 16 2022 The NSA is the largest, most secretive and most powerful intelligence agency in the world. With a staff of 38,000 people, it dwarfs the CIA in budget, manpower and influence. Recent headlines have linked it to economic espionage throughout Europe and to the ongoing hunt for the terrorist leader Osama bin Laden. James Bamford first penetrated the wall of silence surrounding the NSA in 1982, with the much-talked-about US bestseller *THE PUZZLE PALACE*. In *BODY OF SECRETS* he offers shocking new details about the inner workings of the agency, gathered through unique access to thousands of internal documents and interviews with current and former officials. Unveiling extremely sensitive information for the first time, Bamford exposes the role the NSA played in numerous Soviet bloc Cold War conflicts and discusses its undercover involvement in the Vietnam War. His investigation into the NSA's technological advances during the last 15 years brings to light a network of global surveillance ranging from on-line listening posts to sophisticated intelligence-gathering satellites. In a hard-hitting conclusion, he warns the NSA is a double-edged sword: while its worldwide eavesdropping activities offer the potential for tracking down terrorists and

uncovering nuclear weapons deals, it also has the capacity to listen in on global personal communications.

Puzzle Palace Jul 07 2021 Brain Davis is one of the five lucky winners of the Puzzle Palace competition. The prize? To be the first kids to enter Puzzle Palace, part theme park, part brainteaser. **The Shadow Factory** Dec 24 2022 James Bamford has been the preeminent expert on the National Security Agency since his reporting revealed the agency's existence in the 1980s. Now Bamford describes the transformation of the NSA since 9/11, as the agency increasingly turns its high-tech ears on the American public. The Shadow Factory reconstructs how the NSA missed a chance to thwart the 9/11 hijackers and details how this mistake has led to a heightening of domestic surveillance. In disturbing detail, Bamford describes exactly how every American's data is being mined and what is being done with it. Any reader who thinks America's liberties are being protected by Congress will be shocked and appalled at what is revealed here.

The Secret Sentry Mar 15 2022 Presents a history of the agency, from its inception in 1945, to its role in the Cold War, to its controversial advisory position at the time of the Bush administration's search for weapons of mass destruction in Iraq, shortly before the invasion of 2003.

**The Persian Puzzle** Jul 27 2020 In his highly influential book *The Threatening Storm*,

bestselling author Kenneth Pollack both informed and defined the national debate about Iraq. Now, in *The Persian Puzzle*, published to coincide with the twenty-fifth anniversary of the Iran hostage crisis, he examines the behind-the-scenes story of the tumultuous relationship between Iran and the United States, and weighs options for the future. Here Pollack, a former CIA analyst and National Security Council official, brings his keen analysis and insider perspective to the long and ongoing clash between the United States and Iran, beginning with the fall of the shah and the seizure of the American embassy in Tehran in 1979. Pollack examines all the major events in U.S.-Iran relations—including the hostage crisis, the U.S. tilt toward Iraq during the Iran-Iraq war, the Iran-Contra scandal, American-Iranian military tensions in 1987 and 1988, the covert Iranian war against U.S. interests in the Persian Gulf that culminated in the 1996 Khobar Towers terrorist attack in Saudi Arabia, and recent U.S.-Iran skirmishes over Afghanistan and Iraq. He explains the strategies and motives from American and Iranian perspectives and tells how each crisis colored the thinking of both countries' leadership as they shaped and reshaped their policies over time. Pollack also describes efforts by moderates of various stripes to try to find some way past animosities to create a new dynamic in Iranian-American relations, only to find that when one side was ready for such a step, the other side fell short. With balanced tone and insight, Pollack explains how the United States and Iran reached this impasse; why this relationship is critical to regional, global, and U.S. interests; and what basic political choices are available as we deal with this important but deeply troubled country.
