If you ally dependence such a referred **The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl** books that will pay for you worth, get the utterly best seller from us currently from several preferred authors. If you desire to witty books, lots of novels, tale, jokes, and more fictions collections are along with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every books collections The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl that we will agreed offer. It is not something like the costs. Its not quite what you need currently. This The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl, as one of the most operational sellers here will entirely be along with the best options to review.

Thank you for downloading **The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl**. Maybe you have knowledge that, people have look numerous times for their chosen novels like this The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl, but end up in harmful downloads.

Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some infectious bugs inside their computer.

The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl is available in our book collection an online access to it is set as public so you can download it instantly.

Our books collection hosts in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl is universally compatible with any devices to read

Right here, we have countless books **The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl** and collections to check out. We additionally allow variant types and as well as type of the books to browse. The all right book, fiction, history, novel, scientific research, as capably as various supplementary sorts of books are readily open here.

As this The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl, it ends stirring visceral one of the favored book The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl collections that we have. This is why you remain in the best website to see the incredible books to have.

As recognized, adventure as without difficulty as experience very nearly lesson, amusement, as well as understanding can be gotten by just checking out a ebook **The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl** as well as it is not directly done, you could endure even more roughly speaking this life, not far off from the world.

We meet the expense of you this proper as competently as simple showing off to acquire those all. We find the money for The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl and numerous book collections from fictions to scientific research in any way. along with them is this The Taste Of Conquest Rise And Fall Three Great Cities Spice Michael Krondl that can be your partner.

Senlac (Book One) is the first volume of an epic, a two-part, historical novel that brings to life the turbulent period leading to the Norman and Viking invasions and conquest of England in 1066. Here, Timothy D. Taylor tracks the use of music in American advertising for nearly a century, from variety shows like 'The Clicquot Club Eskimons' to the rise of the jingle, from the postwar growth of consumerism, to the more complete fusion of popular music and consumption in the 1980s and after. The love for the donut in the United States is longstanding and deep-rooted. Gourmet donut shops have popped up in trendy neighborhoods across the country and high-end restaurants are serving trios of donuts for dessert, while Dunkin' Donuts, Krispy Kreme, and Tim Hortons have amassed a devoted following. In this captivating guide to the delectable dessert, culinary historian, chef, and donut lover Michael Krondl has put together an entertaining social history of the donut throughout the ages and from around the world. Among the interesting facts Krondl

brings up are the donut's surprising role, not only as a traditional prelude to Lent, but in Hanukkah and Ramadan as well; the serving of donuts to American doughboys in the trenches of World War I; and the delivery by Red Cross Clubmobiles of essential comforts of home to World War II soldiers such as music, movies, magazines and—what else?—donut machines. Mindful that the information might have readers itching to run to their nearest bakery, Krondl also offers a baker's dozen of international donut recipes—with accompanying color photos—including those for Chocolate-Glazed Bismarcks with Marshmallow Filling, Nutella Bombolocini, Frittelle di Carnevale, and Dulce de Leche Raised Donuts with a Salty Caramel Glaze, among others. Out of print for seven years, here is a wonderful early Virginia Henley romance for her legions of fans. Dashing Guy de Montgomery's army sweeps across the British countryside, claiming all in its path. But the fairest prize is Lillyth of Godstone Hall, who soon falls under her handsome captor's spell. "Slrrrp...firstt tastee...one down...his skin and energy...couldn't wait to taste" Lust...passion...and corruption All combined into one Who doesn't like superheroes? everyone loves them. They are strong, They are cool. They are manly men with the kind of body most guys would kill to have, and every woman lust for. Not to mention a special superpower that can turned evil into good, or in contrast, good into evil. This is Mello City, a place where crimes and violations occurred everyday. People much relied on Infinite Superhero, an organization consisted of bunch incredible heroes that dedicated their body and soul to guard and protect citizen Rory, AKA Smart Brain, as one of the Infinite Heroes members suddenly got a routine call to headquarters while having a stupendous sex with his girlfriend, Martha Smith, AKA Mighty Girl, one of few sexy heroines from Infinite Heroes. Although feel annoyed for being disturbed and haven't spurted his seed for a long time, the handsome superhero had to fulfill his duty. On his way, little does he know his justice feeling could bring him into the most unforgettable experiences in his life. An evil genius already has a plan since long time ago for his mind and body. Soon, the smart hero finds logic and power couldn't stand next to evil combined with bizarre lust and pleasure. He finds such a strange sensation of pleasure could change his body, mind, and soul forever. This is the beginning of enslavement. First Conquest start... This is the 1st volume of Superheroes Enslavement series. As the first debut story, Stephen Chu wants to bring everyone who love gay erotica, fiction, and want to see many hunk and handsome superheroes being defeated and obedient completely to swim within the sea of ecstasy through this series. In many Eurocentric histories, Europe's discovery and conquest of the Americas is described as a great saga of achievement. In this seminal book, Ronald Wright tells the story of the people who already lived in the Americas at the time of the European conquest. It's a story of plague and invasion that crippled great civilizations and killed one fifth of the human race. Weaving together contemporary accounts of native peoples with his own compelling historical narrative, Wright has assembled a powerful account of what he terms "a holocaust that began five centuries ago." "This edition published by arrangement with Harlequin Books S.A."--T.p. verso. The scent of oregano immediately conjures the comforts of Italian food, curry is synonymous with Indian flavor, and the fire of chili peppers ignites the cuisine of Latin America. Spices are often the overlooked essentials that define our greatest eating experiences. In this global history of spices, Fred Czarra tracks the path of these fundamental ingredients from the trade routes of the ancient world to the McCormick's brand's contemporary domination of the global spice market. Focusing on the five premier spices—black pepper, cinnamon, nutmeg, cloves, and chili pepper—while also relating the story of many others along the way, Czarra describes how spices have been used in cooking throughout history and how their spread has influenced regional cuisines around the world. Chili peppers, for example, migrated west from the Americas with European sailors and spread rapidly in the Philippines and then to India and the rest of Asia, where the spice quickly became essential to local cuisines. The chili pepper also traveled west from India to Hungary, where it eventually became the national spice—paprika. Mixing a wide range of spice fact with fascinating spice fable—such as giant birds building nests of cinnamon—Czarra details how the spice trade opened up the first age of globalization, prompting a cross-cultural exchange of culinary technique and tradition. This savory spice history will enliven any dinner table conversation—and give that meal an unforgettable dash of something extra. Excerpt from *The Conquest of the Old Northwest and Its Settlement by Americans* While every American is familiar with the events connected with the discovery and colonization of the eastern shores of our country, the history of the Old Northwest - that magnificent section of our country lying west of the Alleghenies and bounded by the Mississippi, the Ohio, and the Great Lakes - is comparatively unknown. It has a history as varied, as interesting, and as important as that of any other portion of the North American continent, and yet few persons realize the extent to which the events attending its early exploration, its conquest, and its settlement have determined, the destiny of our country as a whole. So far as is known to the writer, no attempt has hitherto been made to relate the story of these events in a connected order, free from extraneous details and adapted to the comprehension and tastes of younger readers. Park-man, in his monumental series of historical narratives, has told this story in connection with many others having but slight relation to the Old Northwest; Justin Winsor, in his very scholarly volumes relating to the French regime in America, has done the same. But the works of these writers are too voluminous for general readers, and being designed for mature thinkers they fail to be attractive to the majority of young people just beginning to acquire a taste for historical reading. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Will he surrender his kingdom for a kiss? They call him Conn of the Hundred Battles, the warrior-king who forged a nation from a land of isolated clans. As High King of Ireland, he rides with the legendary Fianna, his elite band of warriors. But a threat to the throne looms from a mysterious enemy who has vanquished several of Conn's bravest warriors. Conn rides out alone to face a seemingly invincible foe, never dreaming he will find a grief-maddened hellcat with emerald eyes and hair like liquid flame... Wielding a sword called Vengeance, Gelina Ó Monaghan has sworn to defeat the man she holds responsible for her family's ruin. She never dreams she will be captured by him—and lose her heart in the bargain. Their forbidden passion will spark a private war fought with swords and kisses, promises and betrayal...until they discover the sweetest surrender of all in each other's arms. Book 2 in the "Brides of Legend" Series, which includes: *Shadows and Lace Lady of Conquest* "Finely drawn characters bring to life a thrilling legend!"—*Romantic Times* "Medeiros is an extraordinary storyteller. *Lady of Conquest* is splendid!"—*Bell, Book & Candle* "A superb story that will capture your imagination and make your heart sigh with bliss. The kind of book you want to read over and over again!"—*Historical Romance Club* "Nobody writes humor with more heart or passion with more pleasure."—Christina Dodd, *New York Times* bestselling author SPECIAL REVISED EDITION ENGLISH LANGUAGE EDITION *The Taste of Conquest* offers

up a riveting, globe-trotting tale of unquenchable desire, fanatical religion, raw greed, fickle fashion, and mouthwatering cuisine—in short, the very stuff of which our world is made. In this engaging, enlightening, and anecdote-filled history, Michael Kronl, a noted chef turned writer and food historian, tells the story of three legendary cities—Venice, Lisbon, and Amsterdam—and how their single-minded pursuit of spice helped to make (and remake) the Western diet and set in motion the first great wave of globalization. Sharing meals and stories with Indian pepper planters, Portuguese sailors, and Venetian foodies, Kronl takes every opportunity to explore the world of long ago and sample its many flavors. Along the way, he reveals that the taste for spice of a few wealthy Europeans led to great crusades, astonishing feats of bravery, and even wholesale slaughter. As stimulating as it is pleasurable, and filled with surprising insights, *The Taste of Conquest* offers a compelling perspective on how, in search of a tastier dish, the world has been transformed. Praise for *The Taste of Conquest* “An altogether rich, perfectly seasoned slice of world history.” —*The Boston Globe* “As a chef I have always been deeply intrigued by the mystique of spices. Michael Kronl’s book awakens and transports the reader into this mysterious world, showing us how our lives and history have been transformed by the sensuous odors of cardamom, nutmeg, and turmeric.” —Gray Kunz, chef and owner of Café Gray and Grayz, co-author of *The Elements of Taste* “Fascinating . . . spicy reading for food and history lovers alike.” —Associated Press “A delicious treat.” —*The Vancouver Sun* “Witty and erudite.” —*Financial Post* “Enticing.” —*Chicago Tribune*

Written by one of the world’s foremost historians of human migration, *Peoples and Empires* is the story of the great European empires—the Roman, the Spanish, the French, the British—and their colonies, and the back-and-forth between “us” and “them,” culture and nature, civilization and barbarism, the center and the periphery. It’s the history of how conquerors justified conquest, and how colonists and the colonized changed each other beyond all recognition. This is the story of a great commander, Captain Robert Corbet, the most hated Navy captain of his day, and the battle for Mauritius. By 1809 the Indian Ocean was the final battleground for Nelson’s Navy and the French fleet. At stake was Britain’s commercial lifeline to India - and its strategic capacity to wage war in Europe. The relentless exploitation of the earth’s resources and technology’s boundless growth are a matter of urgent concern. When did this race towards the limitless begin? The Greeks, who shaped the basis of Western thinking, lived in mortal fear of humanity’s hidden hunger for the infinite and referred to it as hubris, the one true sin in their moral code. Whoever desired or possessed too much was implacably punished by nemesis, yet the Greeks themselves were to pioneer an unprecedented level of ambition that began to reverse that tabu. If it is true that no culture can truly repudiate its origins, and that gods who are no longer potent can vanish but still leave behind a body of myth which continues to live and assert itself in modernized garb, then our concern with the limits of growth reflects something more than an awareness of new technological problems - it also brings to light a psychic wound, a feeling of guilt which are infinitely more ancient. *Dangerous Tastes* offers a fresh perspective on these exotic substances and the roles they have played over the centuries. The author shows how each region became part of a worldwide network of trade - with local consequences ranging from disaster to triumph.”--BOOK JACKET.

The gang is back for one last hurrah on the big island of Hawaii. Harry and Mathilde are renewing their vows, and everyone is taking an extended vacation as a group. Some fun in the surf or the jungle, pedicures and spas, a beautiful wedding on the beach. Sounds simple, right? Oh so wrong! "No, we were just trying to figure out which one of us would do it," Luca said, taking his role of ringleader of their little circus of horrors quite seriously. "Which one of you would do what?" Constance was so confused. "Pee on her hand." Gabriel was very matter-of-fact about it, and Constance paled at his words. She gritted out her next sentence, trying to find her inner Zen. She was sure that bitch had thought Hawaii less relaxing than first expected and had flown the coop. "There...there will be no peeing here on the beach-" she began to say. "I read in a book that pee helps jellyfish stings," Luca informed her. She closed her eyes. "Yes, so it does, but there will be none of that here, nor anywhere else-" "I don't want them to pee on me!" Lizzie's eyes went wide. "I'll have to see their thingies!" Leonora started to giggle, her hands clapping over her mouth and face turning red with hilarity. "There will also be no thingy-showing-to pee or otherwise-and no-" "-the pee would help," Luca said sagely. "No!" Constance stood straight up and proclaimed the stupidest and wildest thing she could think of. "There will no peeing, thingy-showing, or anything else done in bad taste for the rest of this entire trip!" All the kids-even RJ-looked at her like she'd grown snakes from her head like a modern-day Medusa. A supernatural Cinderella meets Mr. Darcy... With her family on the verge of losing everything, Aerith Heiris competes in an elven tournament to become a princess of Faerie. More like a bodyguard! The royal family is full of wicked siblings and plotters. Prince Liri is the worst of all with his relentless obsession and ambition. Then there's Jhaeros, the most arrogant, stuffy, insufferable elf she's ever known. He's the last male whose attention she expected to attract. Falling for him is a risk that could doom them both. It will take more than Aerith's skill with a bow and arrows to play the new game set out before her and save her loved ones. \*\*\* Humorous coming of age fantasy romance for mature audiences. Contains steamy adult scenes. If you enjoy royal intrigue, cunning, rivalries, humor, plot twists, and romance then portal over to the Royal Conquest Saga. Not every fairy tale ends with a prince. Gary Paul Nabhan takes the reader on a vivid and far-ranging journey across time and space in this fascinating look at the relationship between the spice trade and culinary imperialism. Drawing on his own family's history as spice traders, as well as travel narratives, historical accounts, and his expertise as an ethnobotanist, Nabhan describes the critical roles that Semitic peoples and desert floras had in setting the stage for globalized spice trade. Traveling along four prominent trade routes—the Silk Road, the Frankincense Trail, the Spice Route, and the Camino Real (for chiles and chocolate)—Nabhan follows the caravans of itinerant spice merchants from the frankincense-gathering grounds and ancient harbors of the Arabian Peninsula to the port of Zayton on the China Sea to Santa Fe in the southwest United States. His stories, recipes, and linguistic analyses of cultural diffusion routes reveal the extent to which aromatics such as cumin, cinnamon, saffron, and peppers became adopted worldwide as signature ingredients of diverse cuisines. *Cumin, Camels, and Caravans* demonstrates that two particular desert cultures often depicted in constant conflict—Arabs and Jews—have spent much of their history collaborating in the spice trade and suggests how a more virtuous multicultural globalized society may be achieved in the future. How medieval Europe's infatuation with expensive, fragrant, and exotic spices led to an era of colonial expansion and the discovery of new worlds The demand for spices in medieval Europe was extravagant and was reflected in the pursuit of fashion, the formation of taste, and the growth of luxury trade. It inspired geographical and commercial exploration, as traders pursued such common spices as pepper and cinnamon and rarer aromatic products, including ambergris and musk. Ultimately, the spice quest led to imperial missions that were to change world history. This engaging book explores the demand for spices: why were they so popular, and why so expensive? Paul Freedman surveys the history, geography, economics, and culinary tastes of the Middle Ages to uncover the surprisingly varied ways that spices were put to use--in elaborate medieval cuisine, in the treatment of disease, for the promotion of well-being, and to perfume important ceremonies of the Church. Spices became symbols of beauty,

affluence, taste, and grace, Freedman shows, and their expense and fragrance drove the engines of commerce and conquest at the dawn of the modern era. DigiCat Publishing presents to you this special edition of "Blood and Iron" (Origin of German Empire As Revealed by Character of Its Founder, Bismarck) by John Hubert Greusel. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature. A radical retelling of the most important event in English history - the Norman invasion of 1066. Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant. A New York Times Notable Book of 2012 Food, and in particular the lack of it, was central to the experience of World War II. In this richly detailed and engaging history, Lizzie Collingham establishes how control of food and its production is crucial to total war. How were the imperial ambitions of Germany and Japan - ambitions which sowed the seeds of war - informed by a desire for self-sufficiency in food production? How was the outcome of the war affected by the decisions that the Allies and the Axis took over how to feed their troops? And how did the distinctive ideologies of the different combatant countries determine their attitudes towards those they had to feed? Tracing the interaction between food and strategy, on both the military and home fronts, this gripping, original account demonstrates how the issue of access to food was a driving force within Nazi policy and contributed to the decision to murder hundreds of thousands of 'useless eaters' in Europe. Focusing on both the winners and losers in the battle for food, *The Taste of War* brings to light the striking fact that war-related hunger and famine was not only caused by Nazi Germany and Imperial Japan, but was also the result of Allied mismanagement and neglect, particularly in India, Africa and China. American dominance both during and after the war was not only a result of the United States' immense industrial production but also of its abundance of food. This book traces the establishment of a global pattern of food production and distribution and shows how the war subsequently promoted the pervasive influence of American food habits and tastes in the post-war world. A work of great scope, *The Taste of War* connects the broad sweep of history to its intimate impact upon the lives of individuals. From the sacred fudge served to India's gods to the ephemeral baklava of Istanbul's harems, the towering sugar creations of Renaissance Italy, and the exotically scented macarons of twenty-first century Paris, the world's confectionary arts have not only mirrored social, technological, and political revolutions, they have also, in many ways, been in their vanguard. *Sweet Invention: A History of Dessert* captures the stories of sweet makers past and present from India, the Middle East, Italy, France, Vienna, and the United States, as author Michael Krondl meets with confectioners around the globe, savoring and exploring the dessert icons of each tradition. Readers will be tantalized by the rich history of each region's unforgettable desserts and tempted to try their own hand at a time-honored recipe. A fascinating and rewarding read for any lover of sugar, butter, and cream, *Sweet Invention* embraces the pleasures of dessert while unveiling the secular, metaphysical, and even sexual uses that societies have found for it. In this brilliant, engrossing work, Jack Turner explores an era—from ancient times through the Renaissance—when what we now consider common condiments were valued in gold and blood. Spices made sour medieval wines palatable, camouflaged the smell of corpses, and served as wedding night aphrodisiacs. Indispensable for cooking, medicine, worship, and the arts of love, they were thought to have magical properties and were so valuable that they were often kept under lock and key. For some, spices represented Paradise, for others, the road to perdition, but they were potent symbols of wealth and power, and the wish to possess them drove explorers to circumnavigate the globe—and even to savagery. Following spices across continents and through literature and mythology, *Spice* is a beguiling narrative about the surprisingly vast influence spices have had on human desire. Includes eight pages of color photographs. One of the Best Books of the Year: Discover Magazine, The Christian Science Monitor, San Francisco Chronicle "The British Conquest and Dominion of India was a historical episode falling within fairly definite dates. It ended, without doubt, on August 15, 1947, when India and Pakistan were declared independent. Its beginning cannot be fixed with quite the same certainty. It is generally dated from the battle of Plassey, June 23, 1757, which made the British the potential masters of Bengal. But they did not immediately realize their power or exploit it to the fullest, and it was not until 15 years later that they began to govern the province themselves. A sweeping overview of how and what humans have eaten in their long history as a species *The Story of Food in the Human Past: How What We Ate Made Us Who We Are* uses case studies from recent archaeological research to tell the story of food in human prehistory. Beginning with the earliest members of our genus, Robyn E. Cutright investigates the role of food in shaping who we are as humans during the emergence of modern Homo sapiens and through major transitions in human prehistory such as the development of agriculture and the emergence of complex societies. This fascinating study begins with a discussion of how food shaped humans in evolutionary terms by examining what makes human eating unique, the use of fire to cook, and the origins of cuisine as culture and adaptation through the example of Neandertals. The second part of the book describes how cuisine was reshaped when humans domesticated plants and animals and examines how food expressed ancient social structures and identities such as gender, class, and ethnicity. Cutright shows how food took on special meaning in feasts and religious rituals and also pays attention to the daily preparation and consumption of food as central to human society. Cutright synthesizes recent paleoanthropological and archaeological research on ancient diet and cuisine and complements her research on daily diet, culinary practice, and special-purpose mortuary and celebratory meals in the Andes with comparative case studies from around the world to offer readers a holistic view of what humans ate in the past and what that reveals about who we are. For Robbie Russo, only one man has ever owned his heart, Kyler Christenson. The years at each other's sides never diminished his love for him, but with the rise to fame in their rock band, Black Heart Down, more than a few challenges hindered their relationship. Now, he's reached a crossroads, either he'll have all of Kyler, or he'll walk away from everything they've built together. Kyler may be fearless on stage, but if there's one thing to send his heart crashing down, it's losing Robbie. When Robbie delivers his ultimatum, Kyler's willing to do what it takes for things work. But change doesn't happen quickly, and when he makes a terrible mistake, all their history together might not be enough to save their future. Excerpt from *The Conquest of the Old Northwest and Its Settlement by Americans* So far as is known to the writer, no attempt has hitherto been made to relate the story of these events in a connected order, free from extraneous details and adapted to the comprehension and tastes of younger readers. Park man, in his monumental series of historical narratives, has told this story in connection with many others having but slight relation to the Old Northwest; Justin Winsor, in his very scholarly volumes relating to the French regime in America, has done the same. In *Conquest Born* is the monumental science fiction epic that received unprecedented acclaim—and launched C.S. Friedman's phenomenal career. A sweeping story of two interstellar civilizations—locked in endless war, it was nominated for the John W. Campbell Award. In this imaginative book, Maya Jasanoff uncovers the extraordinary stories of collectors who lived on the frontiers of the British Empire in India and Egypt, tracing their exploits to tell an intimate history of imperialism. Jasanoff delves beneath the grand narratives of power, exploitation, and resistance to look at the British Empire through the eyes of the people caught up in it. Written and researched on four continents, *Edge of Empire* enters a world where people lived, loved, mingled, and identified with one another in ways richer and more complex than previous accounts have led us to believe were possible. And as this book demonstrates, traces of that world remain tangible—and topical—today. An innovative, persuasive, and provocative work of history. A look at the twentieth century examines the factors and events that have sent millions to their deaths, discussing the philosophies that have caused so much conflict, as well as what the future may hold for the human race.

In the first volume of an exciting new series, bestselling author Alison Weir brings the dramatic reigns of England's medieval queens to life. The lives of England's medieval queens were packed with incident—love, intrigue, betrayal, adultery, and warfare—but their stories have been largely obscured by centuries of myth and omission. Now esteemed biographer Alison Weir provides a fresh perspective and restores these women to their rightful place in history. Spanning the years from the Norman conquest in 1066 to the dawn of a new era in 1154, when Henry II succeeded to the throne and Eleanor of Aquitaine, the first Plantagenet queen, was crowned, this epic book brings to vivid life five women, including: Matilda of Flanders, wife of William the Conqueror, the first Norman king; Matilda of Scotland, revered as “the common mother of all England”; and Empress Maud, England's first female ruler, whose son King Henry II would go on to found the Plantagenet dynasty. More than those who came before or after them, these Norman consorts were recognized as equal sharers in sovereignty. Without the support of their wives, the Norman kings could not have ruled their disparate dominions as effectively. Drawing from the most reliable contemporary sources, Weir skillfully strips away centuries of romantic lore to share a balanced and authentic take on the importance of these female monarchs. What emerges is a seamless royal saga, an all-encompassing portrait of English medieval queenship, and a sweeping panorama of British history. Praise for *Queens of the Conquest* “Best-selling author [Alison] Weir pens another readable, well-researched English history, the first in a proposed four-volume series on England's medieval queens. . . . Weir's research skills and storytelling ability combine beautifully to tell a fascinating story supported by excellent historical research. Fans of her fiction and nonfiction will enjoy this latest work.”—Library Journal (starred review) “Another sound feminist resurrection by a seasoned historian . . . Though Norman queens were largely unknowable, leave it to this prolific historical biographer to bring them to life. . . . As usual, Weir is meticulous in her research.”—Kirkus Reviews

An ordinary man would fear the realm of the unknown. An extraordinary boy would conquer it. Enemies can come from a different country, different continent or even a different planet, but what if they came from a different Universe? When a freak space phenomenon threatens to tear open the ancient seals of the Universe, teenage rookie Q and his crew are told to head out and gather vital data on the situation. What they weren't told is they wouldn't be coming back. Thrilling, adventurous and action-packed, *ConQuest* promises to be a page turning read that'll always keep you guessing. Book 1 of the #1 bestselling Space Opera series, *The Quest Saga* Author interview Q - So what makes the Quest Saga so special? A - What makes this series special is that it dares to go beyond cultural norm, and fuse together fantasy and science fiction - an ideal that only star wars has pulled off so far. Overall this is an action packed adventure that promises to be exciting and thrilling on every single page - and I've made sure there's never a dull moment. Q - What kind of series is the Quest Saga? A - It's a mix of things basically, which makes it really hard to select a proper genre for it. I'd say it's primarily a Young Adult Space Opera book. That makes you think it's Science Fiction, which is partly true, but this book has strong elements of Paranormal fantasy, which is initially weird to think about. I was very worried if people would like books which fused together dominant elements of both Fantasy and Science Fiction in a Space-Opera/Space-Exploration world. Then Scott Terry, a NYT bestselling author of the Young Adult Science Fiction Series "The Game is Life", told me he read my books, and said it resembled "Star Wars" a lot. First of all that was an amazing comment to get from a Action-Adventure Author like him, and then there's the added advantage of finally figuring out a niche for my book. So now, instead of calling it a "Young Adult Space Opera" I'll be calling it "The book that resembles Star Wars" or maybe "A young adult Dystopian space opera". Q - Why should readers give these books a try? A - Well, I'd say if someone wanted a quick easy read with action-packed adventures, this is the novel for them. Most people love space exploration adventures, and this one combines them with another amazing story tool - magic. So if you want to know what would happen if magic existed in a high-tech space world, this is the book for you. Q - How many books are in the Quest Saga? A - I've planned this out to be a series of five books. So far there are three stories, and I'm actively writing the next two in the series. - *ConQuest* (Get it for free! - <http://www.amazon.com/dp/B00HV4Y3VK>) - *ZeQuest : A Quest Saga Novella* (Save 70% and buy it NOW - <http://www.amazon.com/dp/B015T56UBS>) - *AcQuest* (Available for pre-order - <http://www.amazon.com/dp/B015RYI2NU>)
