This text covers the theory and practice of wellness-oriented gerontological nursing, addressing both physiologic and psychosocial aspects of aging. Organized around the author's unique Functional Consequences Theory, the book explores age-related changes as well as the risk factors that often interfere with optimal health and functioning. Key features include: NEW!Technology to Promote Wellness in Older Adults boxes describe examples of technology-based interventions that can be effective for promoting wellness for older adults. NEW!Interprofessional Collaboration (IPC) material, which is found in boxes or is highlighted with orange bars in the margins, indicates the responsibilities of nurses to collaborate with other professionals and paraprofessionals in health care and community-based settings when caring for older adults. NEW!Global Perspective boxes provide examples of the various ways in which health care professionals in other countries provide care for older adults. NEW!Unfolding Patient Stories, written by the National League for Nursing, are an engaging way to begin meaningful conversations in the classroom. These vignettes, which open each unit, feature patients from Wolters Kluwer's vSim for Nursing Gerontology (co-developed with Laerdal Medical) and DocuCare products; however, each Unfolding Patient Story in the book stands alone, not requiring purchase of these products. For your convenience, a list of these case studies, along with their location in the book, appears in the "Case Studies in This Book" section later in this frontmatter. NEW!Transitional Care Unfolding Case Studies, which unfold across Chapters 27 through 29, to illustrate ways in which nurses can provide effective transitional care to an older adult whose progressively worsening condition requires that her needs be met in several settings. For your convenience, a list of these case studies, along with their location in the book, appears in the "Case Studies in This Book" section later in this frontmatter. Updated unfolding case studies illustrate common experiences of older adults as they progress from young-old to old-old and are affected by combinations of age-related changes and risk factors. Evidence-based information is threaded through the content and summarized in boxes in clinically oriented chapters. Assessment and intervention guidelines help nurses identify and address factors that affect the functioning and quality of life of older adults. Nursing interventions focus on teaching older adults and their caregivers about actions they can take to promote wellness. Case studies include content on transitional care, interprofessional collaboration, and QSEN! Wellness: Concepts and Applications uses the basic precepts of the wellness movement— personal responsibility, behavior change and risk reduction, and health-care consumer awareness—to introduce students to the health- and wellness-related information they need to thrive in today's world. The authors provide accurate, scientifically based information on wellness topics as well as assessment activities and other tools for behavior change. The authors also provide a balance among the seven dimensions of wellness while at the same time emphasizing the central roles of physical fitness, nutrition, avoidance of tobacco, and stress management as keys to a healthy life. Other fitness and wellness

topics include body composition, flexibility, safety, drugs, STDs, chronic diseases, and more. Accompanying the text are instructor and student resources on the Online Learning Center. Learn how to influence policy and become a leader in today's changing health care environment. Featuring analysis of cutting-edge healthcare issues and first-person insights, *Policy & Politics in Nursing and Health Care*, 8th Edition continues to be the leading text on nursing action and activism. Approximately 150 expert contributors present a wide range of topics in policies and politics, providing a more complete background than can be found in any other policy textbook on the market. This expanded 8th edition helps you develop a global understanding of nursing leadership and political activism, as well as the complex business and financial issues that drive many actions in the health system. Discussions include the latest updates on conflict management, health economics, lobbying, the use of media, and working with communities for change. With these innovative insights and strategies, you will be prepared to play a leadership role in the four spheres in which nurses are politically active: the workplace, government, professional organizations, and the community. Comprehensive coverage of healthcare policies and politics provides a broader understanding of nursing leadership and political activism, as well as complex business and financial issues. Key Points at the end of chapters helps you review important, need-to-know lesson content.
