'It is a case befitting Rudransh Ray' The lull of Kolkata was shattered when a night patrol man discovered a dead body in the middle of the night. The offender had used a cricket bat to smash the skull of his victim. But what made everyone shriek in horror was a post-mortem operation. The dead body had been ripped apart, from the throat to the navel. The killer had not stopped at that, he had yanked out the internal organs from the body and tossed them aside for the world to see. Now, the onus was on criminologist Rudransh Ray to find the offender before more bodies surfaced. But as the investigation proceeded and information began to pile up, Ray found himself chasing a killer who killed for a reason, and ripped his victims for pleasure. When the leads failed to reveal the face of The Ripper, a young man came banging at Ray's door, claiming to dream about a murder similar to the one Ray had been hired to investigate. Only, the murder location and the victim in the dream were different. In the bestselling tradition of Richard Preston's now-classic medical thriller The Hot Zone and reminiscent of the blockbuster films Outbreak and Contagion, a fast-paced, page-turning thriller set in India about a deadly disease and the heroic efforts to contain the plague before it's too late... In the courtyard of a Hindu temple in Switzerland, a woman collapses in the arms of a visiting Indian journalist, her body reduced to a puddle of blood. Never before has anyone seen anything like this. Three months later, all over Mumbai, men, women and children are ravaged by a disease that begins with initially mild symptoms—that swiftly progress until an ultimately gruesome death. Who will it hit next? And where did it come from? As the rogue microbe wreaks its bloody havoc—striking rich and poor, young and old—chaos ensues. Thousands try to flee the city, including the most powerful man in the country. Can this deadly plague be stopped? After all, all that stands between the city and apocalypse is a ragged team of doctors, civil servants, and scientists. But their intervention may be too little, too late. Suspenseful and gripping from the first page to the last, Bombay Fever is a meticulously researched novel—too plausible to ignore and too chilling to put down—from one of India's most talented writers. Hayden Paddon was just a boy growing up in Geraldine – in love with racing and dreaming big. Starting with nothing, and wholly determined to beat the odds, he set out on a remarkable 20-year pathway to the World Rally Championship, where he footed it with the best rally drivers on the planet. But it didn't come easy. In Driven, Paddon details the many highs and lows along the road to the top. He opens up about his struggles with bullying, depression and loss as a young man, and goes on public record for the first time about the 2017 accident in which a spectator was killed and his controversial dismissing from the Hyundai Motorsport team in 2018. It's the real account from Paddon himself, in his own words, as he sets the record straight about his dramatic life on and off the road. Driven is captivating, complex and inspirational – a mile-a-minute biography that celebrates self-belief, hard work, and turning dreams into a

"One Simple Journey" was written to log 'our' journey and 'our' mission to slow down and discover more meaning to 'our' lives. Both Tee and I felt that the only way to achieve this was to break away, almost completely, from everyday life and search for balance! It is a simple story that takes you (the reader) on a journey across this great country of ours, and offers you an opportunity to see an ordinary Australian couple's perspective of that journey. Readers will travel with Tee and I on our daily tour and we have set up a link so you can cross reference our destinations in picture form (google - OneSimpleJourneywithCeeandTee or email - onesimplejourneywithceeandtee@gmail.com for a link. Alternatively, you can put the book down and research the areas through other means, which will give you a more vivid and pleasant way of joining Tee and I on our journey. In addition to the "Simple Journey" we have added some personal experiences and a number of personal motto's and beliefs. These family experiences are part of 'our' personal journey and are expressed purely for "us", as "One Simple Journey" has been penned for "us" and was never intended for widespread publication. These personal beliefs are those that we have gathered over our lifetime, with many forming how both Tee and I approach life. So please – Read On – and enjoy, but I ask that you don't expect too much, as this book is "Raw and Simple". It was written and is intended only to distract you from your daily existence and throw another perspective at you. As a song is sung through different sections, their story also moves through three distinct phases. The 'Intro' of the song takes shape when two unknowns meet and fall for each other. Their 'First Verse', a little gloomy as it might sound, is composed when they are parted for the first time. The 'Second Verse', brings the enchanting rhythm back to their lives when their hearts find their way back to each other again. And, finally 'the bridge' of the song takes the song of their lives to new dimensions when they steer through the most difficult test of their relationship. The story touches the ups and downs of their lives like high and low notes of a song. Whether they get to sing their life's song together or their song becomes the destiny's song is what the story is about? We don't understand anymore the consumers. We feel that they are capricious, bad calculators, fickle and irrational. They're doing whatever comes through their heads and yet, we have no choice, we have to deal with them! This is the result of the consumers' cultural revolution making India enters a new consumerist era. The modern consumption has emerged in India when we stopped considering that the human desire for comfort, pleasure and stimulation of this pleasure was necessarily a danger for the moral of men, women and the integrity of the State. Less credulous and more demanding, Indian consumers have very little to do with the past ones who used to buy to live, while today, the tendency is that they live to buy! The consumption pattern has been shaken up going from a consumption need to a need for consumption. With e-commerce, consumers have changed, evolved and mutated once again. This is a natural evolution in respect to the transformation of the consumer society to definitely get lost in their understanding, in the analysis of their behavior and in their way of thinking. Faced with these new behaviors, we need to evolve the way we do our marketing, our way of touching them, interesting them, shocking them, shoving them but also of

delighting them, pleasing them and giving them, in the end, what they ask for: making them live an experience rich in emotions and socially rewarding. Let's condition them to be what we want, that is to say, consumption machines! Bicycling in cities is booming, for many reasons: health and environmental benefits, time and cost savings, more and better bike lanes and paths, innovative bike sharing programs, and the sheer fun of riding. City Cycling offers a guide to this urban cycling renaissance, with the goal of promoting cycling as sustainable urban transportation available to everyone. It reports on cycling trends and policies in cities in North America, Europe, and Australia, and offers information on such topics as cycling safety, cycling infrastructure provisions including bikeways and bike parking, the wide range of bike designs and bike equipment, integration of cycling with public transportation, and promoting cycling for women and children. City Cycling emphasizes that bicycling should not be limited to those who are highly trained, extremely fit, and daring enough to battle traffic on busy roads. The chapters describe ways to make city cycling feasible, convenient, and safe for commutes to work and school, shopping trips, visits, and other daily transportation needs. The book also offers detailed examinations and illustrations of cycling conditions in different urban environments: small cities (including Davis, California, and Delft, the Netherlands), large cities (including Sydney, Chicago, Toronto and Berlin), and "megacities" (London, New York, Paris, and Tokyo). These chapters offer a closer look at how cities both with and without historical cycling cultures have developed cycling programs over time. The book makes clear that successful promotion of city cycling depends on coordinating infrastructure, programs, and government policies.
