A Learner's Guide To Academic Success Jul 07 2021 A Learners Guide to Academic Success is an inspirational and motivational guidebook for school learners in primary and secondary school. This book is highly recommended for high school learners from Grade 8 all the way to Grade 12. This book is also a useful tool for teachers and parents as they can read and share the message with their learners/children. Mafule is passionate about education and spends most of his time participating and running FBA projects such as career guidance, motivation sessions and mentorship in high schools and tertiary institutions in South Africa. Mafule has visited many schools across South Africa to encourage the culture of reading and academic excellence to thousands of learners as a way to help young people access higher levels of education. The schools that have been adopted under FBA have been performing very well and the learners have been able to access post-school opportunities. It is for those reasons that this book is written, to reach out to many young people of South Africa who need an inspirational voice. This inspirational and motivational guide book is a must read for all learners in South Africa who will like to achieve academic success.

Homeschooling High School Aug 08 2021 Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring. But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers. They need information and answers to their questions. And with the current educational and unemployment problems in South Africa, young people need clear direction and guidance to help them achieve their goals. In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system, Homeschooling High School also challenges readers to rethink their values, particularly the value they place on certification, and to consider some unconventional or alternative paths to success. In a clearly presented format, the book includes advice on legal matters, identifying appropriate courses, sourcing study material, tips on entrepreneurship, financing tertiary studies and the testimonies of successful homeschooled graduates. Homeschooling High School is a comprehensive guide to plotting a path through high school and beyond.

The Abbey Girls Apr 23 2020 DigiCat Publishing presents to you this special edition of "The Abbey Girls" by Elsie Jeanette Dunkerley. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Teaching In and Beyond Pandemic Times Jan 01 2021 Here for the first time is an account of the inner lives of teachers during and immediately after the pandemic lockdown. What is teaching like during a pandemic? How did teachers manage their emotional lives as colleagues became infected, hospitalised, and died? What did teachers actually do to bridge the gap in teaching and learning where schools and homes lacked electronic resources? These are amongst the many questions on which this collection of teacher stories sheds light. Most of these are stories of hope, resilience, and enormous courage in the face of a deadly virus. Your faith in teachers and teaching will be restored after reading this book.

Leadership Approaches to Negotiate Challenges in a Changing Education Landscape Feb 02 2021 The argumentative point of departure of this scholarly book is the common conviction of specialists in the field of education in South Africa that the national education system is not at a satisfactory level – in both the academic and the public discourse. Such allegations are made and, frequently, stronger adjectives than ‘non-satisfactory’ are used. Results of international test series in which South Africa has participated, such as the 2015 TIMSS tests, confirm the negative verdicts found in the (public and scholarly) discourse. This book aims to argue that although the lack of performance could be attributed to a multiplicity of factors, one factor that can make a difference in the achievement levels obtained by learners in schools is leadership. The book demonstrates that a particular problem of both the scholarly and the public discourse on education in South Africa is an overtone of defeatism or resignation, blaming all ills in the education system and educational institutions on historical legacies and/or contextual factors (such as socio-economic deprivation in the catchment areas of schools) or poor resources and infrastructure. This collected work was inspired by a recently published spate of articles on top-performing schools (including top-performing schools in rural communities), in which it was demonstrated that good leadership can overcome such contextual and other challenges. The book unpacks the issue of leadership in South African schools from a variety of perspectives, thus contributing to the development of the scholarly discourse on Educational Leadership in South Africa. The target audience of the book is scholars of Educational Leadership. The research reported in the chapters draw on a wide range of methodologies, including empirical (survey) research (questionnaires and interviews), critical literature surveys, and the comparative method.

Journey of Diversity & Inclusion In South Africa Aug 28 2020 The ideas and experiences shared by author Nene Molefi speak directly to the troubling prejudices and inequities that persist in our world. Diversity and inclusion are more pressing than ever. Injustices and deep social divisions persist, personally and systemically. Racism, sexism, homophobia, and other forms of fear and hatred are not isolated. They remain embedded and they demand courageous, deliberate work. In this book, Nene uses her own story to cast a bright light on the transformation journey. Nene's book quite vulnerably takes the reader on Nene's personal journey. In addition to the deeply personal content, each chapter ends with practical guidelines on how to lead inclusively. Nene's book offers hope and substance in our vision of a diverse and inclusive and just society.' A-Justice Edwin Cameron 'This is a deeply authentic personal narrative offering powerful and practical insights, from one of South Africa's foremost advisors on diversity and transformation. It should be required reading for any leader who is serious about effectively transforming their organisation.' A-Dr Jonathan Broomberg, CEO, Discovery Health 'A Journey of Diversity & Inclusion in South Africa will enable all of us to meaningfully interpret and articulate our own biases, narratives and the contributions we can make to heal our fractured nation.' A-Prof Nicola Kleyn, Dean, University of Pretoria's Gordon Institute of Business Science (GIBS) 'It is no longer good enough to say diversity is an asset. Leaders are expected to lead the way of inclusion, live the values and thereby define the DNA of their organisation.' A-Bongani Nqwababa, Joint President & CEO, Sasol Limited 'Mind-opening for those yet to be convinced of the need for transformation, and helpful to those who are already committed to transformation but are not sure how to play a part. This book will empower willing transformers!' A- Thulani Sibeko, Executive for Marketing, Communications and Corporate Affairs, Nedbank 'Nene Molefi offers a personal and professional model that will benefit anyone who wants to make a difference in this world.' A-Julie O'Mara, President, Centre for Global Inclusion, Co-author Global Diversity & Inclusion Benchmarks, Former National President, Association for Talent Development

Marking Matric Jun 06 2021 The past ten years in South Africa has seen many changes in education - the creation of a single department of education; common examinations for all learners in public schools in the country, a new outcomes based education curriculum which was introduced to learners in the general education and training phase since 1998 and will be introduced to the further education and training phase from 2006. To evaluate the success of these changes South African researchers still use the indicator of student achievement. The matriculation examination is the visible, high profile and public performance indicator. Every year parents, learners, teachers, researchers, government officials, policymakers, and the general public get involved in the debate around the matric examination with the most frequently asked questions being - Did the pass rate go up? Are standards dropping? Are the results real or have they been manipulated? How is our education system doing? Are we meeting the development goals? What should the matriculation examination of the future look like? participants from government (national and provincial),

AIMING FOR THE STARS Oct 10 2021 AIMING FOR THE STARS is a memoir of Dr Sphumelele Ndlovu and his life of hardship, which led him to becoming a Scientist. His mother sold chickens to provide for her children, never considering himself worse off than others. The family was poor. Sphumelele's life was also derailed when strikes caused 24 out of the 28 teachers at his school to abandon their posts in his matric year. Education was Ndlovu's ticket to a better future, and he knew at a young age, that he wasn't going to give it up without a fight. Ndlovu's PhD placed him to be part of a team of scientists set out to measure the distance between the Earth and Moon using lasers. It is the sixth-ever such venture, but the first to be carried out by an African team. A man whose horizon was once confined to the perimeter of a chicken coop now handled tools that allowed his eyes to glide over galaxies.
