Popular Science Feb 22 2023 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Contemporary Trends and Challenges in Finance May 01 2021 This book contains a selection of the contributions presented at the conference. The articles reflect the extent, diversity and richness of research areas in the field, both fundamental and applied finance. The target audience of these proceedings includes researchers at universities and research and policy institutions, graduate students and practitioners in economics, finance and international economics in private or government institutions.

Last of the Giants Aug 04 2021 'Last Of the Giants is the mad, funny, dark and often painful story of a lost band from a now-distant time' CLASSIC ROCK MAGAZINE INCLUDES BRAND NEW CHAPTER COVERING GUNS N' ROSES EPIC WORLD TOUR 'Any story about Guns is worth reading. But when the author is

Mick Wall it's absolutely essential' KERRANG Many millions of words have already been written about Guns N' Roses, the old line-up, the new line-up. But none of them have ever really gotten to the truth. Which is this: Guns N' Roses has always been a band out of time, the Last of the Giants. They are what every rock band since the Rolling Stones has tried and nearly always failed to be: dangerous. At a time when smiling, MTV-friendly, safe-sex, just-say-no Bon Jovi was the biggest band in the world, here was a band that seemed to have leapt straight out of the coke-smothered pages of the original, golden-age, late-sixties rock scene. 'Live like a suicide', the band used to say when they all lived together in the Hell House, their notorious LA home. And this is where Mick Wall first met them, and became part of their inner circle, before famously being denounced by name by Axl Rose in the song 'Get in the Ring'. But this book isn't about settling old scores. Written with the clear head that 25 years later brings you, this is a celebration of Guns N' Roses the band, and of Axl Rose the frontman who really is that thing we so desperately want him to be: the last of the truly extraordinary, all-time great, no apologies, no explanations, no giving-a-shit rock stars. The last of his kind. **A Pictorial History of Radio in Canada** May

[Ethnographies of Conferences and Trade Fairs](#)

Jul 03 2021 This anthology is an attempt to make sense of conferences and trade fairs as

phenomena in contemporary society. The authors describe how these large-scale professional gatherings have become key sites for making and negotiating both industries and individual professions. In fact, during the past few decades, conferences and trade fairs have become a significant global industry in their own right. The editors assert that large-scale professional gatherings are remarkable events that require deeper analysis and scholarly attention.

[Battle for the Beetle](#) Dec 20 2022 Ludvigsen traces the history of the Volkswagon Beetle, from its inception as a people's car for Hitler's Germany to its status as a beloved American icon, to the arrival of the New Beetle in 1998. He focuses on the car's creation, the industry-wide power struggle following the German defeat in World
